LETTER TO SHAREHOLDERS

On behalf of your Board of Directors and the executive team at Farm Credit Services of America (FCSAmerica), we are pleased to report that 2023 was a strong year for your cooperative.

Financially, FCSAmerica was successful by almost every key measure.

Loan volume increased and our net earnings reached record levels. Your Board, in turn, returned \$357.0 million in cash-back dividends to eligible customer-owners, our largest regular payout to date. Credit quality across our portfolio remained strong, and we are well capitalized.

Farm Credit exists to be the lender agriculture can depend on, in good and tough times. The past year underscored the value of that dependability.

Adjusted for inflation, net farm income remained above its 20-year average but was down 20 percent from 2022. In nominal terms, crop receipts decreased 4.4 percent year-over-year, with corn receipts declining 10.6 percent and soybeans 5.9 percent. Except for cattle and calves, all major livestock commodity categories also experienced a decrease in receipts. Meanwhile, production costs as a whole increased 3.5 percent.

Within the financial sector, a few high-profile bank failures early in 2023, economic volatility and the Federal Reserve's continued rate hikes to tame inflation resulted in a tighter credit environment. Farm Credit's financial strength, funding system and commitment to agriculture ensured that we had the capital to meet the lending and risk management needs of our customer-owners.

Strategically, we formed an important collaboration in 2023 with AgCountry Farm Credit Services and Frontier Farm Credit.

The collaboration between FCSAmerica, AgCountry Farm Credit Services and Frontier Farm Credit, which takes effect in 2024, provides efficiency through shared management, technology and expertise, while retaining each Association's local offices, ownership and governance. All three Associations enter the collaboration financially strong and committed to meeting the evolving needs of agriculture. Together, we are well positioned to broaden and deepen our impact for our customers.

The investments we make today are shaping that future. We continue to expand and improve technology that allows you to do business with us, when and where it works for you. Our lending products, services and expertise are part of the value we deliver. In 2023, we better aligned our resources to ensure your financial team has the tools needed to support your success and that of your cooperative.

This included building on the success of our relationship officers dedicated to serving young and beginning producers through education and specialized lending products. We also continued to invest in the sustainability program we created two years ago and increased our giving to the local communities we serve.

We encourage you to visit fcsamerica.com to read our 2023 Community Impact and Sustainability reports.

We are proud of our achievements during the past year. They benefited the cooperative you rely on to finance your farms and ranches and advanced our mission to serve agriculture and rural communities. As you look to the 2024 production year and the opportunities and challenges that lie ahead, know that we are working for your success.

Mark Jensen
President and CEO

Nick Jorgensen
2023 Board Chair

FINANCIAL RESULTS

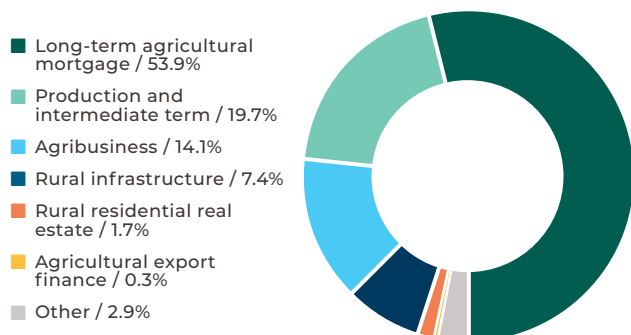

Loan Volume

FCSAmerica's loan volume in 2023 increased \$336.5 million, or just under 1 percent. We ended the year with net loan volume of \$38.6 billion.

Lending to agribusinesses and rural infrastructure projects accounted for much of this growth, areas we consider important to a balanced portfolio and to our mission of serving rural America and all of agriculture.

2023 Loans by Category

Net Income (\$ in millions)

Net Income

Net income for FCSAmerica was \$799.0 million, an increase of nearly 6 percent from 2022. This was largely driven by higher net interest income. Our net interest as a percentage of average earning assets, or net interest margin, was 2.52 percent compared to 2.30 percent in 2022.

This margin is sensitive to interest rate changes and competition. We saw the effect of this in several areas. Usage of lines of credit was down as producers leveraged back-to-back years of profitability to manage costs.

Strong balance sheets and long-term debt locked in at low rates also meant cash was king in the real estate market. Farmland values in the region continued to increase in 2023 for a year-over-year gain of 6 percent, supported by demand from buyers competing for fewer land sales.

Capital and Members' Equity

Throughout 2023, FCSAmerica's capital levels remained well in excess of regulatory minimums. At year-end, members' equity was \$7.5 billion, or 17.9 percent of total assets, up from \$7.1 billion, or 17.5 percent of assets in 2022. The total capital ratio was 14.42 percent. FCSAmerica's total capital target range under our 2024 capital plan is 12.0 percent to 15.0 percent.

We manage our capital to allow us to meet member needs and protect member interests, now and in the future, while ensuring we share our financial success with our customer-owners.

Patronage

We have returned a portion of our net income to eligible customer-owners every year since 2004. In the past 20 years, we have paid a total of \$3.3 billion to farmers, ranchers and agribusinesses. Our 2023 cash-back dividend of \$357.0 million represented a return of 1 percent of customers' eligible average daily balance, effectively reducing the cost of borrowing from us.

Our patronage program is part of the unique value of doing business with FCSAmerica. Your Board has approved the 2024 patronage program; the amount of the dividend will be determined in December.

INVESTMENTS IN THE FUTURE

Collaboration

Agriculture is experiencing unprecedented change. Technology, consolidation and consumer demands are just a few of the forces reshaping the food supply chain. We must evolve too. Our collaboration with AgCountry Farm Credit Services and Frontier Farm Credit allows us to improve and scale our products, services and technology, while also building on our financial strength.

The Associations will share net income/losses by combining financial results, then redistribute the combined net income/losses based on a predetermined allocation, beginning with about 73 percent to FCSAmerica. Each Association will keep separate books and records, as well as ownership of property.

The collaboration is effective on or near April 1 of this year. After full implementation, it is projected to save a combined \$66 million to \$75 million across the three Associations every year. FCSAmerica's share of the savings is estimated to be \$48 million to \$56 million annually.

The collaboration, ultimately, is to ensure that we can fulfill our mission to agriculture. Financial strength allows us to withstand adversity to remain a reliable source of credit. The collaboration also improves our ability to provide competitive lending rates and pricing programs, especially in difficult market cycles; protects a strong patronage program; and supports investments in areas that matter most to farmers and ranchers.

Supporting the Next Generation

The investments we make in our customers' financial success and the future of rural America continue to grow and pay dividends. We hosted more than 45 webinars and in-person meetings, each focused on the financial skills and industry trends that support good business decisions. Individual offices also held financial workshops, crop insurance meetings and small-group discussions tailored to the specific interests and needs of local customers.

Many of these offerings were tailored to young and beginning customers. We served 4,623 young and 6,463 beginning customers in 2023, offering specialized loans and educational programs. We also have a team of relationship officers dedicated to helping young and beginning producers grow and succeed in the industry.

Additionally, we awarded more than 190 college scholarships to qualified students pursuing agriculture-related degrees. These scholarships ranged from \$2,000 to \$2,500 each.

The future of agriculture also requires thriving rural communities. In 2023, we expanded our *Working Here Fund* grants for nonprofit organizations offering programs in agriculture education, hunger and nutrition, and rural disaster relief and essential services. We now offer three grant levels – up to \$5,000, \$10,000 and \$25,000.

The next few years are expected to be increasingly challenging for agriculture. The strategic and financial decisions we made in 2023 build on our ability to fulfill our mission to our customer-owners, the agricultural industry and rural America.

On behalf of your Board of Directors and executive leadership team at FCSAmerica, we thank you for your business.

We served **4,623 young** and **6,463 beginning** customers in 2023.

We awarded more than **190 college scholarships**.

FCSAmerica, ACA Directors

Jeff Burg / Wessington Springs, South Dakota

Burg is president of Firesteel Ranch Corporation, which includes calving and beef feedlot operations and corn, soybeans, small grains and alfalfa crops. He previously served as the managing partner of Foothills Holding, LLC, an agricultural holding company. He serves on the South Dakota Corn Growers Association Board and is the organization's delegate for the U.S. Meat Export Federation. He also is a director on the Wessington Springs Township Board and a member of the AgriBank Nominating Committee for director candidates. Burg was appointed to fill a vacancy on the FCSAmerica Board effective May 1, 2019; his current term ends March 31, 2025.

Jason Frerichs / Wilmot, South Dakota

Frerichs owns and operates a diversified family farming operation that includes soybeans, corn, wheat and alfalfa, as well as a cow-calf and yearling operation. He previously served on the South Dakota Soybean Research and Promotion Council and was a farmer director on the United Soybean Board. Frerichs was elected to the FCSAmerica Board effective April 1, 2022; his current term ends March 31, 2026.

Shane Greckel / Bloomfield, Nebraska

Greckel owns Greckel Farms, LLC, a family farming operation that includes corn and soybeans, a cow-calf herd and feeder-to-finish feedlot. He serves on the Nebraska Information Technology Commission and is vice-chair of the Nebraska Racing and Gaming Commission. Greckel was elected to the Board effective April 1, 2023; his current term ends March 31, 2027.

Steve Henry / Nevada, Iowa

Henry is an owner and partner in LongView Farms, a farming partnership. He is the owner and manager of Henry Land II, LLC as well as the owner and president of Henry Corp. He is an agent for SLV Farms, a farming and land ownership business. Henry also serves on the AgriBank District Farm Credit Council. Henry was elected to the FCSAmerica Board effective January 1, 2011; his current term ends March 31, 2023.

Nicholas Hunt / Atlantic, Iowa

Hunt is partner of Hunt Bros., Inc., a family farm corporation, and Clan Farms, Inc., a beef cattle feedlot. He is manager in Hunt Land, LC, a family agricultural holding company; a partner in Hunt Investment, LC, a holding company for family investments in stock and bonds; Horizons Partnership, a family agricultural business; and manager of Hunt Legacy Farms, LC, a family agricultural land-holding company. Hunt also serves on the CattleFax Board, the Cass Health Foundation Board and the Vision Atlantic Board. He previously served on the Atlantic Community School District Board of Education. Hunt was elected to the FCSAmerica Board effective January 1, 2007; his current term ends March 31, 2025.

Nick Jorgensen / Ideal, South Dakota

An appointed stockholder Director, Jorgensen owns and operates Jorgensen Land and Cattle Partnership with his father, cousin and uncle. The family grows multiple crops, has a registered Angus cow herd and commercial Angus bull operation, and provides guided pheasant hunts. Jorgensen was appointed to the FCSAmerica Board effective April 1, 2016; his current term ends March 31, 2024.

Duane Kristensen / Minden, Nebraska

Kristensen is president of Kristensen Enterprises, LLC, and Gran Boi, LLC, which includes a cow-calf operation as well as corn, soybeans and potato crops. He is retired from Chief Industries Ethanol Division, where he served as general manager/vice president. Kristensen is a member of the Master Trauma Foundation Board. He was elected to the FCSAmerica Board effective April 1, 2022; his term ends on March 31, 2026.

Rick Maxfield / Lyman, Wyoming

Maxfield is a general partner in Maxfield Ranch. The multigenerational family business includes a cow-calf and backgrounding operation. The family also grows hay. Maxfield serves on the AgriBank District Farm Credit Council Nominating Committee and the Bridger Valley Electric Association Board. Maxfield was elected to the FCSAmerica Board effective April 1, 2015; his current term ends March 31, 2027. Maxfield previously served on the FCSAmerica Board from 2004 to 2006.

Cris Miller / Spearfish, South Dakota

Miller is a manager of Miller's Crow Creek Ranch, LLC, a family ranching business with a commercial cow-calf operation, a backgrounding operation and feed crops. He serves on the AgriBank District Farm Credit Council, is the chairman of the Butte Electric Cooperative Board, and serves on the Lawrence County Ag Committee. Miller was elected to the FCSAmerica Board effective January 1, 2012; his current term ends March 31, 2024.

Dana Morgan / Corning, Iowa

Morgan is the commercial ingredient manager for New Balance Commodities, a division of BALANCE4WARD, a cattle feeding company that provides ingredient solutions and business management systems. He and his wife operate Morgan Land & Cattle Company, a cow-calf and cattle feeding operation. He is co-owner of Morgan Brothers, LLC, a land-holding company, and owns Bragg & Morgan, LLC, a rental property business. He also has a farming partnership with Turner Farms Partnership. He currently serves on the Southwest Iowa Rural Electric Cooperative Board and is a trustee for St. Timothy's Catholic Church. Morgan was appointed to fill a vacancy on the FCSAmerica Board effective July 1, 2020; his current term ends March 31, 2025.

Jon Van Beek / Primghar, Iowa

Van Beek has a family farm operation raising corn and soybean seed and is a partner in D-Nine, Inc., custom feeding hogs. He is an elder for Zion Lutheran Church. Van Beek was elected to the FCSAmerica Board effective January 1, 2009; his current term ends March 31, 2024. Van Beek previously served on the FCSAmerica Board from 1995 to 1997 and from 2001 to 2003.

Susan Voss / North English, Iowa

Voss is the vice president, secretary, treasurer and director of BS Farms, Inc., a family corn, soybean, hay and cow-calf operation, and chair of BS Lands, LLC, which holds real estate. Susan is a certified public accountant and has more than 35 years of business experience in tax, audit and consulting services for small- to medium-size family farm operations, agribusinesses and a variety of other business entities. She is currently the controller for Ralston Construction, Inc., and its related entities. Voss also serves as vice-chair on the Farm Credit Foundations Board. Voss was elected to the FCSAmerica Board effective April 1, 2014; her current term ends March 31, 2026.

Mark Weiss / Denver, Colorado

An appointed Director, Weiss is the chief information officer with Tri-Sate Generation and Transmission Association, Inc., a not-for-profit power supply cooperative. His background is in information technology and risk management, and he is a Certified Information Systems Security Professional. Additionally, Weiss completed the National Association of Corporate Directors' Cyber-Risk Oversight Program and earned the CERT Certificate in Cybersecurity Oversight. During the past five years, he has served as an executive with Smart Energy Water, and as the chief information officer for NTT (U.S.), Inc. Weiss was appointed to the FCSAmerica Board effective April 1, 2014; his current term ends March 31, 2026.

Bill Yates / Elkhorn, Nebraska

Yates is an appointed Director with more than 35 years of experience in public accounting. He has led treasury, accounting, budgeting and strategic planning, acquisition integration and financial risk management functions. He is retired from TD Ameritrade, where he held senior financial positions, including treasurer and managing director of finance. He also manages family farm real estate in Hall County, Nebraska. He serves as vice chair of the CHI Health Board of Directors. Yates was appointed to the FCSAmerica Board effective April 1, 2023; his current term ends March 31, 2027.

Jennifer Zessin / Madison, Nebraska

Zessin and her husband have a farming operation raising corn, soybeans, wheat and alfalfa. Together they own Zessin Farms, LLC, and 3Z Equipment, LLC. She has past business experience in banking, human resources and internal auditing. Zessin serves on the AgriBank District Farm Credit Council, the Farm Credit Council Board of Directors and the Farm Credit Council Services Board of Directors. She also is treasurer for Trinity Lutheran Church and School. Zessin was elected to the FCSAmerica Board effective January 1, 2009; her current term ends March 31, 2024.

Farm Credit Services of America, ACA

Management's Discussion and Analysis of Financial Condition and Results of Operations

The following commentary reviews the consolidated financial condition and consolidated results of operations of Farm Credit Services of America, ACA (FCSAmerica) and its subsidiaries, Farm Credit Services of America, FLCA and Farm Credit Services of America, PCA (the subsidiaries), and provides additional specific information. The accompanying Consolidated Financial Statements and Notes to the Consolidated Financial Statements also contain important information about our financial condition and results of operations.

The Farm Credit System is a federally chartered network of borrower-owned lending institutions composed of cooperatives and related service organizations, established by Congress to meet the credit needs of American agriculture. As of January 1, 2024, the Farm Credit System consisted of three Farm Credit Banks, one Agricultural Credit Bank and 56 customer-owned cooperative lending institutions (Associations). The Farm Credit System serves all 50 states, Washington, D.C., and Puerto Rico. This network of financial cooperatives is owned and governed by the rural customers the Farm Credit System serves – the American farmer and rancher.

AgriBank, FCB, a Farm Credit System bank, and its affiliated Associations are collectively referred to as the AgriBank, FCB Farm Credit District. FCSAmerica, ACA is one of the affiliated Associations in the AgriBank, FCB Farm Credit District.

The Farm Credit Administration is authorized by Congress to regulate the Farm Credit System banks and Associations. The Farm Credit System Insurance Corporation (FCSIC) administers the Farm Credit System Insurance Fund. The Insurance Fund ensures the timely payment of principal and interest on Systemwide debt obligations and the retirement of protected borrower capital at par or stated value and for other specified purposes.

To request a free copy of our annual or quarterly reports, contact us at PO Box 2409, Omaha, NE 68103-2409, (800) 531-3905, via email to [\\$sr@fcsamerica.com](mailto:$sr@fcsamerica.com) or view them on our website, fcsamerica.com. The annual report is available on our website no later than 75 days after the end of the calendar year, and shareholders are provided a copy of the report no later than 90 days after the end of the calendar year. The quarterly reports are available on our website no later than 40 days after the end of each calendar quarter.

Notice of Significant or Material Events

The Boards of Directors of Farm Credit Services of America, ACA, AgCountry Farm Credit Services, ACA, and Frontier Farm Credit, ACA entered into an agreement with an effective date of December 29, 2023, that provides for a contractual collaboration among the three Farm Credit Associations. Subject to completion of certain shareholder engagement activities and consent from the Associations' respective supervisory Banks, the agreement provides that the three Associations will be jointly managed and will commence sharing income and losses on April 1, 2024, or as soon as reasonably practical thereafter. Mark Jensen, current joint president and CEO of Farm Credit Services of America, ACA and Frontier Farm Credit, ACA, will serve as the joint president and CEO for all three Associations, and Marc Knisely, current president and CEO of AgCountry, will join the newly formed, joint executive leadership team. The Associations will deploy a common business approach to the development and delivery of products and services and use common technology platforms that accommodate differences in local marketplace conditions. While the Associations will be jointly managed and operate under jointly developed strategic business plans and supporting plans, they will remain separate organizations with strong, local representation. This will include independent boards of directors and distinct patronage programs.

Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Information

This annual report includes forward-looking statements. These statements are not guarantees of future performance and involve certain risks, uncertainties and assumptions that are difficult to predict. Words such as “anticipate,” “believe,” “estimate,” “may,” “expect,” “intend,” “outlook” and similar expressions are used to identify such forward-looking statements. These statements reflect our current views with respect to future events. However, actual results may differ materially from our expectations due to a number of risks and uncertainties that may be beyond our control. These risks and uncertainties include but are not limited to:

- political (including trade and environmental policies and civil unrest), legal, regulatory, financial markets, and economic conditions or other conditions and developments in the United States and abroad;
- economic fluctuations, including inflationary indicators, in the agricultural, international, rural and farm-related business sectors;
- weather-related, disease and other adverse climatic or biological conditions that periodically occur and impact agricultural productivity and income;
- changes in United States government support of the agricultural industry (including government-support payments) and the Farm Credit System as a government-sponsored enterprise (GSE), as well as investor and rating-agency reactions to events involving the United States government, other GSEs and other financial institutions;
- actions taken by the Federal Reserve System and U.S. Treasury in implementing monetary policy and managing federal spending;
- credit, interest rate and liquidity risks inherent in our lending activities;
- changes in our assumptions for determining the allowance for credit losses and fair value measurements;
- industry outlooks for agricultural conditions;
- changes in interest rate indices utilized in our lending;
- length and severity of an epidemic or pandemic;
- cybersecurity risks, including a failure or breach of our operational or security systems or infrastructure, or those of our third-party vendors or other service providers;
- disruptive technologies impacting the banking and financial services industries or implemented by our competitors that negatively impact our ability to compete in the marketplace.

Commodity Review and Outlook

After reaching record highs in 2022, inflation-adjusted net farm income for United States producers decreased 20.0 percent to \$151.1 billion in 2023. The decline in prices for many crop and livestock commodities drove the decrease in net farm income. Despite weakened earnings in 2023, net farm income remained above the 2003 through 2022 average.

On an inflation-adjusted basis, farm cash receipts decreased 7.8 percent nationally compared to 2022 for a total of \$509.6 billion. In nominal terms, crop receipts decreased 4.4 percent year-over-year due to combined receipts for corn and soybeans falling. United States producers harvested a record corn crop, which lowered expected prices in 2023 and sent corn receipts down 10.6 percent. Soybean receipts fell 5.9 percent due to lower-than-expected prices and quantities.

Cash receipts from cattle and calves increased \$14.3 billion, or 16.6 percent; this was due to price growth, which outpaced quantities sold. Live cattle futures began 2023 in the mid \$150 per hundredweight range and finished the year in the low \$170 per hundredweight range. With the current cattle sector in a contractionary phase, cattle supplies tightened in response to drought, high feed costs and higher borrowing costs. United States domestic demand for beef was robust in 2023. However, United States beef exports were lower year-over-year due to the drop in domestic beef production.

Cash receipts for all other major livestock commodities were down in 2023. At \$26.2 billion, cash receipts for hogs declined 14.2 percent from 2022. United States hog producers experienced lower prices and negative breakeven price levels for much of 2023 due to adequate supplies, weak domestic demand and high production costs. Lean hog futures began 2023 around \$80 per hundredweight and finished the year in the high \$60 per hundredweight range. The silver lining in 2023 came from the export market. Pork exports from the United States were higher year-over-year due in large part to increased demand from Mexico, Canada, Australia and the Dominican Republic.

For the United States dairy sector, milk receipts decreased 18.3 percent, or \$10.5 billion, to \$46.8 billion, from 2022 to 2023. Feed costs kept margins tight, which was reflected in record-low Dairy Margin Coverage (DMC) levels in 2023. Producers started the year with milk prices at \$23.10 per hundredweight. Prices fell to \$17.40 per hundredweight before rebounding later in the year to \$20.60 per hundredweight. Limited supply growth and weak demand led to softening of dairy commodity prices.

Egg prices, which hit record highs in 2022, remained elevated during the first quarter of 2023, supported by a lift in demand from the Easter holiday. Seasonally, demand is lowest during May through July, and egg prices declined to their summer lows. As the egg market entered the second half of 2023, normal trends continued through October. In November and December, the Highly Pathogenic Avian Influenza (HPAI) returned, triggering increased buying by retailers to meet holiday demand. This pushed Urner Barry's Midwest Large egg prices north of \$2.00 per dozen.

Farm Credit Services of America, ACA

Management’s Discussion and Analysis of Financial Condition and Results of Operations

Producers faced many challenges in 2023, including market volatility and higher production expenses. Total production expenses for the United States agricultural sector in 2023 increased 3.5 percent from last year to \$443.4 billion. Interest expenses and livestock and poultry purchases saw the largest increases in 2023.

Largely absent from net farm income in 2023 were direct government farm payments. After reaching a record high of \$45.6 billion in 2020, direct government farm payments have fallen every subsequent year. From 2022 to 2023, direct government farm payments decreased 22.3 percent to \$12.1 billion. The overall decrease from 2020 primarily reflects lower payments from supplemental and ad hoc disaster assistance, including lower COVID-19 pandemic assistance.

The average December monthly prices received by farmers and ranchers for the past five years are reflected in the table below:

Commodity	Averages for the Month of December:				
	2023	2022	2021	2020	2019
Corn	\$4.80	\$6.58	\$5.47	\$3.97	\$3.71
Soybeans	\$13.10	\$14.40	\$12.50	\$10.50	\$8.70
Wheat	\$6.79	\$8.98	\$8.59	\$5.43	\$4.64
Beef cattle (all)	\$172.00	\$154.00	\$137.00	\$108.00	\$118.00
Hogs (all)	\$53.30	\$62.50	\$56.50	\$49.10	\$47.30
Milk (all)	\$20.60	\$24.70	\$21.70	\$18.50	\$20.70
Eggs (all)	\$1.47	\$4.49	\$1.36	\$0.73	\$0.93

We monitor, compile and report real estate sales information for FCSAmerica’s four-state territory. We also monitor 63 benchmark farms in the four states, the values of which are updated each January and July. The following table compiled by our appraisal team reflects average value changes for each state during the past six-month, one-year, five-year and ten-year periods as of January 1, 2024. The current number of benchmark farms is shown in parentheses after each state.

State	Six-Month	One-Year	Five-Year	Ten-Year
Iowa (21)	0.1%	0.5%	60.8%	36.1%
Nebraska (18)	4.4%	7.8%	49.9%	27.0%
South Dakota (22)	2.7%	7.5%	47.7%	37.6%
Wyoming (2)	2.3%	3.1%	63.2%	119.2%

In the latter half of 2021 and into 2022, farmland values saw their steepest increase in values in the past 10 years. In 2023, the Iowa farmland market appears stable, and there is continued strength in Nebraska, South Dakota and Wyoming. Factors impacting the real estate market include a limited supply of agricultural real estate in the market, top-quality farms generating strong sales prices, and agricultural real estate being viewed as a good long-term investment.

Loan Portfolio

Our loan volume experienced another year of growth and increased a net \$336.5 million, or 0.9 percent, in 2023. We experienced growth in our production and intermediate-term, agribusiness and rural infrastructure portfolios. This growth would have been stronger but for the asset pool program activity detailed below. Our loan portfolio consists primarily of agricultural real estate loans, production operating loans, intermediate-term installment loans and credit facilities to agricultural businesses. A high percentage of real estate loan installments are due in the December-to-March period. Most operating loans mature and are refinanced after the fall harvest and before spring planting. Operating loan volume tends to peak late in the fall, decline toward January and trend upward during the remainder of the year. Equipment loans generally have annual installments that correlate to customer commodity sales. Federal regulations state that long-term real estate loans are not to exceed 85.0 percent of the property’s appraised value (97.0 percent if guaranteed by a government agency). However, internal lending procedures require a more conservative loan-to-value ratio, which results in an average loan-to-value ratio in the real estate portfolio of less than 50.0 percent of current market values.

We participate in asset pool programs to effectively leverage AgriBank, FCB Farm Credit District capital and other cooperative benefits, as well as manage concentration risk and portfolio growth. In the past, we sold AgriBank, FCB participation interests primarily in real estate loans as part of asset pool programs. On September 1, 2023, we purchased the loans totaling \$58.2 million from the prior asset pool programs back from AgriBank, FCB. On November 1, 2023, we sold AgriBank, FCB participation interests as part of asset pool programs of \$4.5 billion, with funded balances of \$3.5 billion, representing a participation interest across certain sectors of our loan portfolio. The total outstanding participation interests in loans sold to AgriBank, FCB as part of asset pool programs were \$3.5 billion, \$61.1 million and \$66.6 million at December 31, 2023, 2022 and 2021, respectively.

As a result of the adoption of the Current Expected Credit Losses (CECL) methodology, accrued interest receivable on loans of \$571.9 million at December 31, 2023, has been excluded from the amortized cost of loans in all of the following tables and is presented in “Accrued interest receivable” in the Consolidated Statements of Condition.

Farm Credit Services of America, ACA

Management's Discussion and Analysis of Financial Condition and Results of Operations

The following table summarizes our loan portfolio by major category (dollars in thousands):

	December 31,					
	2023		2022		2021	
	Amount	Percentage	Amount	Percentage	Amount	Percentage
Accrual loans:						
Long-term agricultural mortgage	\$20,747,528	53.7%	\$23,166,531	59.7%	\$22,254,387	61.6%
Production and intermediate term	7,601,571	19.7	7,350,820	19.0	7,140,313	19.8
Agribusiness loans to:						
Cooperatives	442,752	1.1	509,208	1.3	606,119	1.7
Processing and marketing	4,221,008	10.9	3,437,573	8.9	2,802,168	7.8
Farm-related business	777,526	2.0	655,970	1.7	485,321	1.3
Communication	830,061	2.1	676,846	1.7	540,855	1.5
Energy loans	1,714,971	4.5	993,076	2.6	517,126	1.4
Water/wastewater	321,957	0.8	100,387	0.3	36,167	0.1
Rural residential real estate	640,843	1.7	832,069	2.1	966,357	2.7
Agricultural export finance	125,468	0.3	127,638	0.3	89,855	0.2
Other	1,102,635	2.9	860,702	2.2	583,831	1.6
Nonaccrual loans	120,548	0.3	84,753	0.2	102,662	0.3
Total loans	\$38,646,868	100.0%	\$38,795,573	100.0%	\$36,125,161	100.0%

The "Other" category is primarily composed of certain assets characterized as mission-related investment loans and U.S. Department of Agriculture guaranteed loans.

We have no single customer or group of related customers who has more than 10.0 percent of our volume or who would have a material effect if they no longer did business with us.

	December 31,		
	2023	2022	2021
Grain	32.0%	37.0%	38.8%
Landlords/investors	10.3	11.2	11.5
Beef feedlot	9.4	8.5	8.8
Swine	6.7	7.2	7.4
Cow-calf	4.9	5.7	6.3
Dairy	4.2	3.8	4.1
Energy generation/transmission	3.1	1.5	1.1
Forest products	2.9	2.3	2.2
Meat/proteins processing	2.0	1.7	1.4
Poultry	1.9	1.6	1.7

Food/beverage distribution	1.4	0.7	0.8
Farm supply	1.4	1.5	1.9
Dairy processing	1.1	1.0	1.1
Other	13.3	11.7	8.9
Total	100.0%	100.0%	100.0%

Commodities are based on the borrower's primary intended commodity at the time of loan origination and may change due to borrower business decisions as a result of weather, prices, input costs and other circumstances.

Our chartered territory includes Iowa, Nebraska, South Dakota and Wyoming. The remainder of our portfolio comprises loans outside of our territory. We participate in and purchase these outside loans to support rural America and to diversify our portfolio risk. The geographic distribution of loan volume follows:

State	December 31,		
	2023	2022	2021
Iowa	30%	34%	36%
Nebraska	24	24	25
South Dakota	14	16	16
Wyoming	2	2	2
Other states	30	24	21
	100%	100%	100%

In certain circumstances, government-agency guarantee programs are used to reduce the risk of loss. At December 31, 2023, \$1.1 billion of our loans was substantially guaranteed under these government programs compared to \$846.5 million in 2022 and \$569.1 million in 2021.

Farm Credit Services of America, ACA

Management's Discussion and Analysis of Financial Condition and Results of Operations

The following table summarizes nonperforming assets and delinquency information (dollars in thousands):

	December 31,		
	2023	2022	2021
Loans:			
Nonaccrual	\$120,548	\$ 84,753	\$102,662
Restructured	—	37,036	30,696
Accruing loans 90 days or more past due	7,570	12,673	6,203
Total nonperforming loans	128,118	134,462	139,561
Other property owned, net	—	—	7,621
Total nonperforming assets	\$128,118	\$134,462	\$147,182
Nonperforming loans as a percentage of total loans	0.33%	0.35%	0.39%
Nonaccrual loans as a percentage of total loans	0.31%	0.22%	0.28%
Current nonaccrual loans as a percentage of total nonaccrual loans	40.4%	74.1%	86.0%
Total delinquencies as a percentage of total loans	0.51%	0.29%	0.29%

Total nonperforming loans have decreased since the end of 2022. The decrease in nonperforming loans primarily results from the removal of recording troubled debt restructurings as a result of the adoption of CECL. The increase in nonaccrual loans was primarily due to the swine and fruits/vegetables portfolios, which was slightly offset by a decrease in accruing loans 90 days or more past due. Based on our analysis, loans 90 days or more past due and still accruing interest were adequately secured and in the process of collection. Additionally, as nonperforming loans are reviewed, it is not unusual to experience movement between risk classifications. Nonperforming loans as a percentage of total loans remain at acceptable levels.

Our adversely classified assets increased during 2023, ending the year at 1.96 percent of the portfolio compared to 1.63 percent of the portfolio at December 31, 2022, and 3.01 percent at December 31, 2021. Adversely classified assets are assets we identified as showing some credit weakness according to our credit standards. We have considered portfolio credit quality in assessing the reasonableness of our allowance for credit losses on loans.

Allowance for Credit Losses on Loans

Effective January 1, 2023, we adopted Accounting Standards Update 2016-13, "Financial Instruments – Credit Losses (Topic 326) – Measurement of Credit Losses on Financial Instruments (CECL)." This guidance established a single allowance framework for all financial assets measured at amortized cost and certain off-balance sheet credit exposures and replaced the incurred loss guidance. This framework requires that management's estimate reflects credit losses over the asset's remaining expected life and considers expected future changes in macroeconomic conditions and is referred to as the Current Expected Credit Losses (CECL) methodology. The allowance for credit losses comprises the allowance for credit losses on loans, unfunded commitments and investment securities.

Comparative allowance coverage of various loan categories follows:

	December 31,		
	2023	2022	2021
Allowance for credit losses on loans as a percentage of:			
Total loans	0.21%	0.15%	0.21%
Nonaccrual loans	68.02%	68.43%	73.06%
Total nonperforming loans	64.00%	43.13%	53.74%
Net charge-offs as a percentage of average loans	0.13%	—	—
Adverse assets as a percentage of capital and allowance for credit losses on loans	12.46%	10.22%	18.53%

The allowance for credit losses on loans is an estimate of expected credit losses on loans in our portfolio. We determine the appropriate level of allowance for credit losses based on a disciplined process and methodology that incorporates expected probabilities of default and loss given default based on historical portfolio performance, forecasts of future economic conditions, and management's judgment with respect to unique aspects of current and expected conditions that may not be contemplated in historical loss experience or forecasted economic conditions. Prior to January 1, 2023, the allowance for loan losses was an estimate of losses on loans in our portfolio as of the financial statement date.

Total allowance for credit losses on loans was \$82.0 million, \$58.0 million and \$75.0 million at December 31, 2023, 2022 and 2021, respectively. The increase from December 31, 2022, was driven by growth in our loan portfolio, increased specific reserves, loan charge-offs and the cumulative effect adjustment that was recorded as a result of the adoption of CECL on January 1, 2023. Additional information related to the adoption of this new guidance is included in Note 2 to the accompanying Consolidated Financial Statements.

Farm Credit Services of America, ACA

Management's Discussion and Analysis of Financial Condition and Results of Operations

Investment Securities

In addition to loans, we held investment securities. Investment securities totaled \$772.4 million at December 31, 2023, and \$175.9 million at December 31, 2022. Our investment securities consisted of pools of loans guaranteed by the U.S. Small Business Administration.

Effective January 1, 2023, we adopted CECL, which amended the previous other-than-temporary impairment model for investment securities to incorporate an allowance for credit losses on investment securities. There was no allowance for credit losses on investment securities at December 31, 2023, as all of our investment portfolio carries a full faith and credit guarantee of the United States government. Premiums paid to purchase the investments are not guaranteed and are amortized as a reduction of interest income. Additional information regarding the CECL adoption is included in Note 2 to the accompanying Consolidated Financial Statements. Prior to January 1, 2023, the investment securities portfolio was evaluated for other-than-temporary impairment. For the year ended December 31, 2022, we did not recognize any impairment on our investment securities portfolio. We did not hold investment securities at December 31, 2021.

Additional investment securities information is included in Note 5 to the accompanying Consolidated Financial Statements.

Results of Operations

The following table provides profitability information:

	December 31,		
	2023	2022	2021
Net income (dollars in thousands)	\$799,041	\$753,974	\$773,069
Return on average assets	1.93%	1.98%	2.23%
Return on average members' equity	10.82%	10.82%	11.86%

Changes to our return on average assets and return on average members' equity are related directly to the changes in assets discussed in the "Loan Portfolio" section, and the changes in members' equity are discussed in the "Members' Equity" section.

Farm Credit Services of America, ACA

Management's Discussion and Analysis of Financial Condition and Results of Operations

Major components of the changes in net income for 2023, 2022 and 2021 are outlined in the following table (dollars in thousands):

	For the year ended December 31,			Increase (decrease) in net income	
	2023	2022	2021	2023 vs. 2022	2022 vs. 2021
Net interest income	\$986,933	\$838,511	\$789,143	\$148,422	\$ 49,368
Provision for credit losses	63,042	(18,158)	(79,231)	(81,200)	(61,073)
Noninterest income	412,609	390,658	366,752	21,951	23,906
Noninterest expense	529,790	487,172	453,766	(42,618)	(33,406)
Provision for income taxes, net	7,669	6,181	8,291	(1,488)	2,110
Net income	\$799,041	\$753,974	\$773,069	\$ 45,067	\$(19,095)

The effects on net interest income from changes in average volumes and rates are presented in the following table (dollars in thousands):

	2023 vs. 2022	2022 vs. 2021
Change in volume	\$ 60,468	\$75,326
Change in interest rates	90,604	(24,434)
Change in nonaccrual income	(2,650)	(1,524)
Net change	\$148,422	\$49,368

The net interest margin (net interest as a percentage of average earning assets) was 2.52 percent for 2023 compared to 2.30 percent in 2022 and 2.38 percent in 2021. Our net interest margin is sensitive to interest rate changes and competition. The increase in net interest income is due to higher loan volume and income earned on our earning assets that are funded by our noninterest-bearing source (capital).

Net interest income included income on nonaccrual loans that totaled \$(2.5) million in 2023, \$188.0 thousand in 2022 and \$1.7 million in 2021. Nonaccrual interest income is recognized when:

- received in cash,
- collection of the recorded investment is fully expected, and
- prior charge-offs have been recovered.

The "Provision for credit losses" in the Consolidated Statements of Income includes a provision for credit losses on loans as well as a provision for credit losses on unfunded commitments. Additional information is included in Note 3 to the accompanying Consolidated Financial Statements.

The increase in noninterest income is primarily due to an increase in patronage income and insurance income. The increase in noninterest expense is primarily due to salary and benefits expenses for increased costs to support business initiatives.

Provision for Income Taxes

The change in provision for income taxes was primarily related to our estimate of taxes based on taxable income. Additional disclosure is included in Note 11 to the accompanying Consolidated Financial Statements.

Farm Credit Services of America, ACA

Management's Discussion and Analysis of Financial Condition and Results of Operations

Patronage Income

We may receive patronage income from AgriBank, FCB and other Farm Credit institutions which are declared solely at the discretion of each institution's Board of Directors. Patronage received may be in the form of cash or stock. Patronage from AgriBank, FCB primarily consists of:

- wholesale patronage, which includes patronage on our note payable with AgriBank, FCB,
- pool program patronage based on the net earnings of loan participation interests sold to AgriBank, FCB, and
- distributions based on our share of the net earnings of the loans in the AgDirect® trade credit financing program, adjusted for servicing and origination fees.

The partnership distribution on our share of net earnings of the loans in the AgDirect trade credit financing program is described under "AgDirect, LLP" later in this section of the annual report.

A breakdown of patronage income received is shown in the following table (dollars in thousands):

	For the 12 months ended December 31,		
	2023	2022	2021
Patronage from AgriBank, FCB	\$181,872	\$161,575	\$163,674
AgDirect, LLP partnership distribution	16,828	13,524	9,521
Other patronage	27,160	23,019	1,613
Total patronage income	\$225,860	\$198,118	\$174,808
Form of patronage distributions:			
Cash	170,349	75,561	150,733
Stock	55,511	122,557	24,075
Total patronage income	\$225,860	\$198,118	\$174,808

Patronage Program

Our Board adopted a patronage program for eligible customers in 2023 and 2022. Our Board has adopted patronage programs annually for two decades. The 2023 and 2022 programs were based on each customer's average daily balance of eligible loans outstanding during the year. This included eligible originations, participations purchased and participations sold volume. The patronage program is a distribution of earnings to our eligible stockholders and is a qualified (cash) distribution referred to as a cash-back dividend. We recorded a patronage liability of \$357.0 million in December 2023 to be paid in 2024. We recorded a patronage liability of \$341.0 million in December 2022 that was paid in 2023.

The 2021 patronage program was based on each customer's average daily balance of eligible loans outstanding during the year on eligible originations and participations purchased. We recorded a patronage liability of \$296.5 million in December 2021 that was paid in 2022.

Our Board also has adopted a patronage program for 2024. The 2024 patronage program will be based on each customer's average daily balance of eligible loans outstanding during 2024 to be paid in 2025 on eligible originations, participations purchased and participations sold volume.

Funding and Liquidity

We borrow from AgriBank, FCB under a note payable, in the form of a line of credit, as described in Note 8 to the accompanying Consolidated Financial Statements. This line of credit is our primary source of liquidity and is used to fund operations and meet current obligations. At December 31, 2023, we had a \$38 billion revolving line of credit with AgriBank, FCB. We generally apply excess cash to this line of credit. Due to the cooperative structure of the Farm Credit System, and as we are a stockholder of AgriBank, FCB, we expect this borrowing relationship to continue into the foreseeable future. Our other source of lendable funds is from equity.

At December 31, 2023, the direct loan average balance was \$33.6 billion compared to \$30.9 billion and \$27.8 billion at December 31, 2022 and 2021, respectively. At December 31, 2023, the direct loan average interest rate was 3.75 percent compared to 2.99 percent at December 31, 2022, and 1.35 percent at December 31, 2021. Our average cost of funds is variable and may fluctuate based on the current interest rate environment.

The interest rate risk inherent in our loan portfolio is substantially mitigated through this funding relationship. AgriBank, FCB manages interest rate risk through its direct loan pricing and asset/liability management processes. The direct loan pricing mechanism simulates matching the cost of underlying debt with substantially the same terms as the anticipated terms of our loans to customers. The primary risks we manage include pipeline risk and basis risk. Pipeline risk occurs when we commit a fixed interest rate to a customer in advance of the loan's closing date and is effectively mitigated through the use of rate-lock agreements. Basis risk occurs when the interest rate on a loan reprices according to one index, while the debt supporting that loan reprices according to another index.

During 2022, we offered a fixed rate line of credit program for our operating loans. The balance of this program at December 31, 2023, was zero and \$2.0 billion at December 31, 2022.

We provide financing to eligible customers with various interest rate programs. New loans are priced with consideration given to local competitive conditions, the cost of debt that will be incurred to fund the loan, the individual risk elements of the loan and profit objectives. Interest on real estate loans is generally paid in full annually, while interest on agricultural production loans is generally paid in full at the annual renewal date of the loan.

Farm Credit Services of America, ACA

Management's Discussion and Analysis of Financial Condition and Results of Operations

We offer variable-rate loan products that include variable-rate loans repriced at our discretion, as dictated by market conditions, and market-indexed variable-rate loans that provide customers with the option of indexing their interest rate to external market indices such as the SOFR or the prime rate.

We also offer fixed-rate operating loans for up to 24 months, fixed-rate installment loans for up to 10 years and fixed-rate mortgage loans in yearly increments from five to 30 years.

Additionally, we offered real estate adjustable-rate loans that were indexed to one-, three- or five-year U.S. Department of the Treasury rates. The loans repriced at one-, three- or five-year intervals at a rate equal to the corresponding U.S. Department of the Treasury rate plus a contractual spread. The one-, three- or five-year adjustable-rate loans were generally subject to periodic caps ranging from 2.0 percent to 2.5 percent with a 6.0 percent life cap. The cost of debt supporting these loans was capped accordingly.

We also offer a prepayment-restricted loan product. This is a fixed-rate product with a prepayment penalty provision if prepayments are made during the initial three, five or seven years of the loan term. For agreeing to restricted prepayments, the customer receives a reduced interest rate that remains in effect for the entire loan term.

A breakdown of the loan portfolio by rate type, as a percentage of total volume at December 31, is shown in the following table:

	December 31,		
	2023	2022	2021
Variable rate	38.7%	30.3%	35.9%
Fixed rate	61.3	69.7	64.1
	100.0%	100.0%	100.0%

In August 2023, Fitch Ratings lowered the United States sovereign's long-term Issuer Default Rating and the long-term debt rating for the Farm Credit System to AA+ from AAA. The F1+ short-term ratings were affirmed, and the outlooks on the long-term debt ratings were revised to stable. As a government-sponsored enterprise (GSE), the Farm Credit System benefits from the implicit government support. Therefore, the ratings are directly linked to the United States sovereign rating. Additionally, Fitch Ratings lowered the long-term debt rating for the Farm Credit Banks, including AgriBank, FCB, to A+ from AA-. The F1+ short-term rating was affirmed, and the outlook on the long-term debt rating was revised to stable. The reduction in the credit rating by Fitch Ratings for the Farm Credit Banks, including AgriBank, FCB, could result in higher funding costs, which could impact our costs.

Members' Equity

Our equity structure is described in Note 9 to the accompanying Consolidated Financial Statements. Members' equity increased to \$7.50 billion at December 31, 2023, compared to \$7.07 billion at December 31, 2022, and \$6.65 billion at December 31, 2021. The increase in 2023 was due to net income recorded in 2023 offset by patronage payable and the cumulative effect of the change in accounting principle. Members' equity as a percentage of total assets increased to 17.9 percent at December 31, 2023, compared to 17.5 percent at December 31, 2022, and 17.8 percent at December 31, 2021. Effective January 1, 2023, we adopted the CECL accounting guidance, the cumulative effect of the change in accounting principle was a result of this adoption. Refer to Note 2 to the accompanying Consolidated Financial Statements for additional information regarding the CECL adoption.

The Farm Credit Administration regulations require us to maintain minimums for our common equity Tier 1, Tier 1 capital, total capital and permanent capital risk-based capital ratios. In addition, the Farm Credit Administration requires us to maintain minimums for our non-risk-adjusted ratios of Tier 1 leverage and unallocated retained earnings and equivalents (UREE) leverage. Effective January 1, 2022, the Farm Credit Administration regulations slightly modified the calculation of the unallocated retained earnings and equivalents leverage ratio to include certain additional deductions. The modification did not have a material impact on this ratio.

	As of December 31,			Regulatory Minimums	Minimums
	2023	2022	2021		With Buffers
Risk-adjusted ratios:					
Common equity Tier 1	14.18%	14.82%	15.82%	4.5%	7.0%
Tier 1 capital	14.18%	14.82%	15.82%	6.0%	8.5%
Total capital	14.42%	15.00%	16.06%	8.0%	10.5%

Farm Credit Services of America, ACA

Management's Discussion and Analysis of Financial Condition and Results of Operations

Our capital plan is designed to maintain an adequate amount of surplus and allowance for credit losses, which represents our reserve for adversity prior to impairment of stock. We manage our capital to allow us to meet member needs and protect member interests, both now and in the future.

Capital ratios are directly impacted by changes in capital, assets and off-balance sheet commitments. Refer to the "Loan Portfolio" section and the "Investment Securities" section for further discussion of the changes in assets. Additional discussion of regulatory ratios and members' equity information is included in Note 9, and off-balance sheet commitments are discussed in Note 13 to the accompanying Consolidated Financial Statements.

In addition to these regulatory requirements, we establish an optimum total capital target range. This allows us to maintain a capital base adequate for future growth and investment in new products and services. The range is subject to revision as circumstances change. Our total capital target range is 12.0 percent to 15.0 percent as defined in our 2024 capital plan.

If the capital ratios fall below the total requirements, including the buffer amounts, capital distributions (equity redemptions, dividends and patronage) and discretionary senior executive bonuses are restricted or prohibited without prior Farm Credit Administration approval. We do not foresee any events that would result in this prohibition in 2024.

Relationship With AgriBank, FCB

We borrow from AgriBank, FCB to fund our lending operations in accordance with the Farm Credit Act of 1971, as amended. Approval from AgriBank, FCB is required for us to borrow elsewhere. A General Financing Agreement, as discussed in Note 8 to the accompanying Consolidated Financial Statements, governs this lending relationship. The components of cost of funds under the General Financing Agreement include:

- a marginal cost-of-debt component,
- a spread component, which includes cost of servicing, cost of liquidity and bank profit, and
- a risk-premium component, if applicable.

In the periods presented, we were not subject to the risk-premium component. Our cost of funds may be impacted by certain factors, which primarily include market interest rate changes impacting marginal cost of debt as well as changes to pricing methodologies impacting the spread components.

The marginal cost-of-debt approach simulates matching the cost of underlying debt with similar terms as the anticipated terms of our loans to borrowers. This approach substantially protects us from market interest rate risk. We may occasionally engage in funding strategies that result in limited interest rate risk. This is done with approval by AgriBank, FCB's Asset/Liability Committee.

We are required to invest in AgriBank, FCB capital stock as a condition of borrowing. This investment may be in the form of

purchased stock or stock representing distributed AgriBank, FCB surplus. AgriBank, FCB required an investment equal to 3.0 percent of the average quarterly balance of our note payable. The required investment increased to 3.1 percent for 2024.

We also are required to hold an additional investment in AgriBank, FCB based on contractual agreements under any asset pool program in which we participate.

AgriBank, FCB's capital plan is intended to provide for adequate capital at AgriBank, FCB, under capital regulations as well as create a path to long-term capital optimization within the AgriBank, FCB, District. The plan optimizes capital at AgriBank, FCB; distributing available AgriBank, FCB, earnings in the form of patronage, either cash or AgriBank, FCB stock, which is at the sole discretion of the AgriBank, FCB Board of Directors. The plan is designed to maintain capital adequacy such that sufficient earnings will be retained in the form of unallocated retained earnings and allocated stock to meet the leverage ratio target and other regulatory or policy constraints prior to any cash patronage distributions.

At December 31, 2023, \$565.7 million of our investment in AgriBank, FCB consisted of stock representing distributed AgriBank, FCB surplus. That amount was \$514.1 million at December 31, 2022, and \$392.9 million in 2021. At December 31, 2023, 2022 and 2021, our purchased investment was \$833.5 million, \$444.2 million and \$384.6 million, respectively. For the periods presented in this annual report, we have received no dividend income on this stock investment, and we do not anticipate any in future years.

As an AgDirect, LLP partnering association, we are required to purchase stock in AgDirect, LLP, which purchases an equivalent amount of stock in AgriBank, FCB.

Due to the nature of our financial relationship with AgriBank, FCB, the financial condition and results of operations of AgriBank, FCB materially impact our stockholders' investments in FCSAmerica. To request a free copy of the combined AgriBank, FCB financial reports, contact us at PO Box 2409, Omaha, NE 68103-2409, (800) 531-3905 or via email to [\\$sr@fcsamerica.com](mailto:$sr@fcsamerica.com). You may also contact AgriBank, FCB at 30 East 7th Street, Suite 1600, St. Paul, MN 55101, (651) 282-8800 or via email to financialreporting@agribank.com. The reports also are available through AgriBank, FCB's website at agribank.com. Annual reports are available no later than 75 days after the end of the calendar year, and quarterly reports are available no later than 40 days after the end of each calendar quarter.

Relationship With Frontier Farm Credit, ACA

We continue to be in a strategic alliance with Frontier Farm Credit, ACA (Frontier Farm Credit), designed to benefit the farmers and ranchers who own and support the two financial services cooperatives by ensuring that both Associations have the strength and capacity to serve agricultural customers' needs for years to come.

FCSAmerica and Frontier Farm Credit continue to exist as separate Associations while integrating their day-to-day business

Farm Credit Services of America, ACA

Management's Discussion and Analysis of Financial Condition and Results of Operations

operations, technology systems and leadership teams. While each Association continues to have its own independent Board, the Boards meet jointly to enhance coordination and collaboration between the two organizations.

Under the alliance agreement, FCSAmerica and Frontier Farm Credit have agreed to share current-year income and expenses based generally on the average total assets of each entity for the prior calendar year. For the year ending December 31, 2023, pretax net income was shared on fixed percentages of 93.9 and 6.1 percent for FCSAmerica and Frontier Farm Credit, respectively. For the year ending December 31, 2023, FCSAmerica recorded \$28.5 million of net operating expense credits under the income- and expense-sharing provisions of the alliance agreement, primarily due to incurred expenses by FCSAmerica for Frontier Farm Credit associated expenses. The net operating expense credits recorded by FCSAmerica were \$25.3 million for the year ended December 31, 2022, and \$26.1 million for the year ended December 31, 2021. The net operating expense credits specifically attributable to salaries and employee benefits, and occupancy and equipment expense are recorded in their respective accounts in our Consolidated Statements of Income. The remainder of the allocation is a net recording to "Other operating expenses" in our Consolidated Statements of Income. Depending on the activity in each Association, this allocation can result in the recording of an operating expense credit.

FCSAmerica has \$41.9 billion in assets and serves the states of Iowa, Nebraska, South Dakota and Wyoming. Frontier Farm Credit has \$3.1 billion in assets and serves multiple counties in eastern Kansas.

AgDirect®, LLP

We have entered into agreements with 14 other Farm Credit System Associations inside and outside of the AgriBank, FCB District to provide access to our AgDirect trade credit financing program. The AgDirect program includes origination and refinancing of agricultural equipment loans and leases through independent equipment dealers. The Farm Credit Administration has approved requests from these Associations to invest in a limited liability partnership (LLP) that facilitates this collaborative AgDirect trade credit financing program and allows us to leverage the AgDirect, LLP program for the mutual benefit of these Associations and the farmers and ranchers we collectively serve. Our investment is reflected as "Investment in AgDirect, LLP" in our Consolidated Statements of Condition. The LLP is an unincorporated business entity and purchases from us participations in AgDirect, LLP loans that were originated under the agreements described earlier. The LLP subsequently sells a like amount of loan participations to AgriBank, FCB. The LLP pays us a fee for originating these loans. Total outstanding participations sold to the LLP at December 31, 2023, were \$5.1 billion compared to \$5.1 billion at the end of 2022 and \$5.4 billion at the end of 2021. AgriBank, FCB, at the discretion of its Board of Directors, pays patronage on these loan

participations to AgDirect, LLP. Any patronage declared is accrued quarterly and paid by AgriBank, FCB in the first month of the subsequent quarter. AgDirect, LLP distributes any patronage paid by AgriBank, FCB as partnership distributions to the AgDirect, LLP partners. At December 31, 2023, our investment in AgDirect, LLP was \$128.1 million. At December 31, 2022, and 2021, our investment in AgDirect, LLP was \$109.1 million and \$94.4 million, respectively.

CoBank, ACB

We have a relationship with CoBank, ACB, a Farm Credit System Bank, which involves purchasing or selling participation interests in loans. As part of this relationship, our equity investment in CoBank, ACB was \$6.2 million at December 31, 2023, \$4.5 million at December 31, 2022, and \$3.2 million at December 31, 2021. For further discussion on our relationship with CoBank, ACB see Note 12 to the accompanying Consolidated Financial Statements.

SunStream Business Services

We have a relationship with SunStream Business Services (SunStream), a System service corporation. The services we purchase from them include tax-reporting services; cash management; customer, travel and expense credit card programs; and expense and invoice reporting tools. For further discussion on our relationship with SunStream, see Note 12 to the accompanying Consolidated Financial Statements.

Farm Credit Foundations

We have a relationship with Farm Credit Foundations, a System service corporation, which involves purchasing human resource, benefit, payroll and workforce management services. For further discussion on our relationship with Farm Credit Foundations, see Note 12 to the accompanying Consolidated Financial Statements.

Rural 1st

We are a participant in the Rural 1st referral program to provide rural home lending to our customers. The program is facilitated by another Association in the AgriBank, FCB District where the loans are serviced. We receive noninterest income from the facilitating Association on loan volume originated in our territories via Rural 1st. For further discussion on our relationship with Rural 1st, see Note 12 to the accompanying Consolidated Financial Statements.

Farm Credit Services of America, ACA

Management's Discussion and Analysis of Financial Condition and Results of Operations

ProPartners Financial

We participate in ProPartners Financial (ProPartners) with certain Farm Credit System institutions to provide producer financing through agribusinesses that sell crop inputs. ProPartners is directed by representatives from participating Associations. We sell to AgriBank, FCB our entire interest in the loans associated with ProPartners. As part of this program, we receive patronage income at the sole discretion of the AgriBank, FCB Board of Directors. For further discussion on our relationship with ProPartners, see Note 12 to the accompanying Consolidated Financial Statements.

Farm Credit Leasing Services Corporation

We have an agreement with Farm Credit Leasing Services Corporation (FCL), a Farm Credit System service corporation, which specializes in leasing products and provides industry expertise. Leases are originated and serviced by FCL, and we purchase a participation interest in the cash flows of the transaction. This arrangement provides our customers with a broad selection of product offerings and enhanced lease expertise. For further discussion on our relationship with FCL, see Note 12 to the accompanying Consolidated Financial Statements.

Rural Business Investment Companies

We and other Farm Credit System institutions are among the limited partners invested in Rural Business Investment Companies (RBICs). The RBICs facilitate equity and debt investments in agriculture-related businesses that create growth and job opportunities in rural America. Certain commitments may have an option to extend under specific circumstances. For further discussion see Note 13 to the accompanying Consolidated Financial Statements.

FarmLend® Program

In 2020, we introduced the FarmLend® website, which provides a way to apply for farmland financing online. In 2021, we began collaborating with other Farm Credit Associations to allow prospects to apply for a land loan from participating Farm Credit Associations. In 2023, we had \$666.4 thousand of fee income. In 2022, we received \$1.8 million in fee income. In 2021, we had \$74 thousand in fee income. While we continue to accept applications via this platform, as of December 31, 2023, we have discontinued this program with other Farm Credit Associations.

Other Unincorporated Business Entities (UBEs)

In certain circumstances, we may establish separate entities to acquire and manage complex collateral, primarily for legal liability purposes. Those entities are FCSAmerica PCA Holdings, LLC and FCSAmerica FLCA Holdings, LLC.

Agri-Access

We participate in the Agri-Access asset pool program, which focuses on providing financing for agricultural real estate loans and leases through a network of non-Farm Credit lenders across the United States. The program is facilitated by another AgriBank, FCB District association where all loans and leases in the program are originated and serviced. We pay the facilitating association fees to originate and service the loans. We sell to AgriBank, FCB our entire interest in the loans associated with Agri-Access. As part of this program, we receive patronage income at the sole discretion of the AgriBank, FCB Board of Directors.

Farm Credit Services of America, ACA Report of Management

We prepare the Consolidated Financial Statements of Farm Credit Services of America, ACA (Association) and are responsible for their integrity and objectivity, including amounts that must necessarily be based on judgments and estimates. The Consolidated Financial Statements have been prepared in conformity with accounting principles generally accepted in the United States of America. The Consolidated Financial Statements, in our opinion, fairly present the financial condition of the Association. Other financial information included in the annual report is consistent with that in the Consolidated Financial Statements.

To meet our responsibility for reliable financial information, we depend on accounting and internal control systems designed to provide reasonable, but not absolute, assurance that assets are safeguarded, and that transactions are properly authorized and recorded. Costs must be reasonable in relation to the benefits derived when designing accounting and internal control systems. Financial operations audits are performed to monitor compliance. PricewaterhouseCoopers LLP, our independent auditors, audit the Consolidated Financial Statements. They also consider internal controls to the extent necessary to design audit procedures that comply with generally accepted auditing standards in the United States of America. The Farm Credit Administration also performs examinations for safety and soundness, as well as compliance with applicable laws and regulations.

The Board of Directors has overall responsibility for our system of internal control and financial reporting. The Board of Directors and its Audit Committee consult regularly with us and meet periodically with the independent auditors and other auditors to review the scope and results of their work. The independent auditors have direct access to the Board of Directors, which is composed solely of directors who are not officers or employees of the Association.

The undersigned certify that we have reviewed the Association's annual report, and it has been prepared in accordance with all applicable statutory or regulatory requirements, and the information contained herein is true, accurate and complete to the best of our knowledge and belief.

Farm Credit Services of America, ACA Report on Internal Control Over Financial Reporting

Farm Credit Services of America, ACA's (Association) principal executives and principal financial officers, or persons performing similar functions, are responsible for establishing and maintaining effective internal control over financial reporting for the Association's Consolidated Financial Statements. For purposes of this report, "internal control over financial reporting" is defined as a process designed by, or under the supervision of, the Association's principal executives and principal financial officers, or persons performing similar functions, and effected by its Board of Directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting information and the preparation of the Consolidated Financial Statements for external purposes in accordance with accounting principles generally accepted in the United States of America, and includes those policies and procedures that: (1) pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the Association, (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial information in accordance with accounting principles generally accepted in the United States of America, and that receipts and expenditures are being made only in accordance with authorizations of management and directors of the Association, and (3) provide reasonable assurance regarding prevention, or timely detection and correction, of unauthorized acquisition, use or disposition of the Association's assets that could have a material effect on its Consolidated Financial Statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

The Association's management has completed an assessment of the effectiveness of internal control over financial reporting as of December 31, 2023. In making the assessment, management used the 2013 framework in Internal Control – Integrated Framework, promulgated by the Committee of Sponsoring Organizations of the Treadway Commission, commonly referred to as the "COSO" criteria.

Based on the assessment performed, the Association concluded that as of December 31, 2023, the internal control over financial reporting was effective based upon the COSO criteria. Additionally, based on this assessment, the Association determined that there were no material weaknesses in the internal control over financial reporting as of December 31, 2023.

Farm Credit Services of America, ACA Report of Audit Committee

The Consolidated Financial Statements of Farm Credit Services of America, ACA (Association) were prepared under the oversight of the Audit Committee. The Audit Committee is composed of four individuals from the Association Board of Directors. In 2023, the Audit Committee met four times. The Audit Committee oversees the scope of the Association's internal audit program, the approval and independence of PricewaterhouseCoopers LLP (PwC) as our independent auditors, the adequacy of the Association's system of internal controls and procedures, and the adequacy of management's action with respect to recommendations arising from those auditing activities. The Audit Committee's responsibilities are described more fully in the Internal Control Policy and the Audit Committee Charter.

Management is responsible for internal controls and the preparation of the Consolidated Financial Statements in accordance with accounting principles generally accepted in the United States of America. PwC is responsible for performing an independent audit of the Consolidated Financial Statements in accordance with auditing standards generally accepted in the United States of America and to issue its report based on its audit. The Audit Committee's responsibilities include monitoring and overseeing these processes.

In this context, the Audit Committee reviewed and discussed the audited Consolidated Financial Statements for the year ended December 31, 2023, with management. The Audit Committee also reviewed with PwC the matters required to be discussed by Statements on Auditing Standards AU-C 260, "The Auditor's Communication With Those Charged With Governance," and both PwC and the internal auditors directly provided reports on any significant matters to the Audit Committee.

The Audit Committee had discussions with and received written disclosures from PwC confirming its independence. The Audit Committee also reviewed the non-audit services provided by PwC, if any, and concluded these services were not incompatible with maintaining PwC's independence. The Audit Committee discussed with management and PwC any other matters and received any assurances from them as the Audit Committee deemed appropriate.

Based on the foregoing review and discussions, and relying thereon, the Audit Committee recommended that the Board of Directors includes the audited Consolidated Financial Statements in the annual report for the year ended December 31, 2023.

Report of Independent Auditors

To the Board of Directors of Farm Credit Services of America, ACA:

Opinion

We have audited the accompanying consolidated financial statements of Farm Credit Services of America, ACA and its subsidiaries (the "Association"), which comprise the consolidated statements of condition as of December 31, 2023, 2022 and 2021, and the related consolidated statements of income, changes in members' equity and cash flows for the years then ended, including the related notes (collectively referred to as the "consolidated financial statements").

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of the Association as of December 31, 2023, 2022 and 2021, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are required to be independent of the Association and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter

As discussed in Note 2 to the consolidated financial statements, the Association changed the manner in which it accounts for the allowance for credit losses in 2023. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Association's ability to continue as a going concern for one year after the date the consolidated financial statements are available to be issued.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the consolidated financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Association's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the consolidated financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Association's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the information included in the 2023 Annual Report, but does not include the consolidated financial statements and our auditors' report thereon. Our opinion on the consolidated financial statements does not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the consolidated financial statements or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

A handwritten signature in cursive script that reads "PricewaterhouseCoopers LLP".

Farm Credit Services of America, ACA

Notes to Consolidated Financial Statements

Note 1 – Organization and Operations

Farm Credit System and District

Farm Credit System Lending Institutions

The Farm Credit System is a federally chartered network of borrower-owned lending institutions composed of cooperatives and related service organizations, established by Congress to meet the credit needs of American agriculture. As of January 1, 2024, the Farm Credit System consisted of three Farm Credit Banks, one Agricultural Credit Bank and 56 customer-owned cooperative lending institutions (Associations). The Farm Credit System serves all 50 states, Washington, D.C., and Puerto Rico. This network of financial cooperatives is owned and governed by the rural customers the Farm Credit System serves – the American farmer and rancher.

AgriBank, FCB and its affiliated Associations are collectively referred to as the AgriBank, FCB Farm Credit District. At January 1, 2024, the AgriBank, FCB Farm Credit District consisted of 11 Credit Associations that each has wholly owned Federal Land Credit Association and Production Credit Association subsidiaries.

Federal Land Credit Associations are authorized to originate long-term real estate mortgage loans. Production Credit Associations are authorized to originate short-term and intermediate-term loans. Agricultural Credit Associations are authorized to originate long-term real estate mortgage loans and short-term and intermediate-term loans either directly or through their subsidiaries. Associations are authorized to provide lease financing options for agricultural purposes and are also authorized to purchase and hold certain types of investments. AgriBank, FCB provides funding to all Associations chartered within the AgriBank, FCB Farm Credit District.

Associations are authorized to provide, either directly or in participation with other lenders, credit and related services to eligible borrowers. Eligible borrowers may include farmers, ranchers, producers or harvesters of aquatic products, rural residents and farm-related service businesses. Additionally, Associations can participate with other lenders in loans to similar entities. Similar entities are parties who are not eligible for a loan from a Farm Credit System lending institution but have operations that are functionally similar to the activities of eligible borrowers.

Farm Credit System Regulator

The Farm Credit Administration is authorized by Congress to regulate the Farm Credit System banks and associations. We are examined by the Farm Credit Administration, and certain Association actions are subject to the prior approval of the Farm Credit Administration and/or AgriBank, FCB.

Farm Credit System Insurance Fund

The Farm Credit System Insurance Corporation (FCSIC) administers the Farm Credit System Insurance Fund. The Insurance Fund is used to ensure the timely payment of principal and interest on Farm Credit Systemwide debt obligations, to ensure the retirement of protected borrower capital at par or stated value, and for other specified purposes.

At the discretion of the FCSIC, the Farm Credit System Insurance Fund also is available to provide assistance to certain troubled Farm Credit System institutions and for the operating expenses of the FCSIC. Each Farm Credit System bank is required to pay premiums into the Farm Credit System Insurance Fund until the assets in the Farm Credit System Insurance Fund equal 2.0 percent of the aggregated insured obligations adjusted to reflect the reduced risk on loans or investments guaranteed by federal or state governments.

This percentage of aggregate obligations can be changed by the FCSIC, at its sole discretion, to a percentage it determines to be actuarially sound. The basis for assessing premiums is debt outstanding with adjustments made for nonaccrual loans and impaired investment securities, which are assessed a surcharge, while guaranteed loans and investment securities are deductions from the premium base. AgriBank, FCB, in turn, assesses premiums to its affiliated Associations each year based on similar factors.

Association

Farm Credit Services of America, ACA (ACA) and its subsidiaries, Farm Credit Services of America, FLCA (FLCA) and Farm Credit Services of America, PCA (PCA), collectively referred to as FCSAmerica, are lending institutions of the Farm Credit System. We are a member-owned cooperative providing credit and credit-related services to, or for the benefit of, eligible members for qualified agricultural purposes in the states of Iowa, Nebraska, South Dakota and Wyoming. We borrow from AgriBank, FCB and provide financing and related services to our members. Our ACA holds all the stock of the FLCA and PCA subsidiaries. We offer risk management services, including crop, crop hail, multi-peril and livestock insurance, for borrowers and those eligible to borrow.

Relationship With Frontier Farm Credit, ACA

We continue to be in a strategic alliance with Frontier Farm Credit, ACA (Frontier Farm Credit), designed to benefit the farmers and ranchers who own and support the two financial services cooperatives by ensuring that both Associations have the strength and capacity to serve agricultural customers' needs for years to come.

FCSAmerica and Frontier Farm Credit continue to exist as separate Associations while integrating their day-to-day business operations, technology systems and leadership teams. While each Association continues to have its own independent Board, the Boards meet jointly to enhance coordination and collaboration between the two organizations.

Under the alliance agreement, FCSAmerica and Frontier Farm Credit have agreed to share current-year income and expenses based generally on the average total assets of each entity for the prior calendar year. For the year ending December 31, 2023, pretax net income was shared on fixed percentages of 93.9 and 6.1 percent for FCSAmerica and Frontier Farm Credit, respectively. For the year ending December 31, 2023, FCSAmerica recorded \$28.5 million of net operating expense credits under the income- and expense-sharing provisions of the alliance agreement primarily due to incurred expenses by FCSAmerica for Frontier

Farm Credit Services of America, ACA

Notes to Consolidated Financial Statements

Farm Credit associated expenses. The net operating expense credits recorded by FCSAmerica were \$25.3 million for the year ended December 31, 2022, and \$26.1 million for the year ended December 31, 2021. The net operating expense credits specifically attributable to salaries and employee benefits, and occupancy and equipment expenses are recorded in their respective accounts in our Consolidated Statements of Income. The remainder of the allocation is a net recording to "Other operating expenses" in our Consolidated Statements of Income. Depending on the activity in each Association, this allocation can result in the recording of an operating expense credit.

FCSAmerica has \$41.9 billion in assets and serves the states of Iowa, Nebraska, South Dakota and Wyoming. Frontier Farm Credit has \$3.1 billion in assets and serves multiple counties in eastern Kansas.

Note 2 – Summary of Significant Accounting Policies

Our accounting and reporting policies conform to accounting principles generally accepted in the United States of America and prevailing practices within the financial services industry.

Preparing financial statements in conformity with accounting principles generally accepted in the United States of America requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the Consolidated Financial Statements as well as the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates. Certain amounts in prior years' financial statements have been reclassified to conform to the current year's presentation.

The Consolidated Financial Statements present the consolidated financial results of Farm Credit Services of America, ACA (the parent) and Farm Credit Services of America, FLCA and Farm Credit Services of America, PCA (the subsidiaries), collectively referred to as FCSAmerica. All material intercompany transactions and balances have been eliminated in consolidation.

The following are our significant accounting policies:

Loans

Mortgage-loan terms range from five to 35 years at origination. Commercial loans are made for agricultural production or operating purposes with original terms of 10 years or less. Other operating loans have original terms up to 24 months.

A loan is considered contractually past due when any principal repayment or interest payment required by the loan instrument is not received on or before the due date. A loan remains contractually past due until certain modifications are completed or until the entire amount past due, including principal, accrued interest and penalty interest incurred as the result of past-due status, is collected or otherwise discharged in full.

Loans are carried at their principal amount outstanding net of any unearned income, cumulative charge-offs and unamortized premiums or discounts on purchased loans. Loan interest is accrued and credited to interest income based on the daily principal amount outstanding. The net amount of loan fees and related origination costs are not material to the Consolidated Financial Statements taken as a whole.

Generally, we place loans in nonaccrual status when:

- principal or interest is delinquent for 90 days or more (unless the loan is adequately secured and in the process of collection), or
- circumstances indicate that full collection is not expected.

When a loan is placed in nonaccrual status, we reverse current-year accrued interest. When we deem a loan to be uncollectible, we charge the loan principal and prior year(s) accrued interest against the allowance for credit losses on loans. Subsequent recoveries, if any, are added to the allowance for credit losses on loans. Any cash received on nonaccrual loans is applied to reduce the carrying amount in the loan, except in those cases where the collection of the carrying amount in the loan is fully expected and certain other criteria are met. In these circumstances, interest is credited to income when cash is received. Loans are charged off at the time they are determined to be uncollectible. Nonaccrual loans may be returned to accrual status when principal and interest are current, the customer's ability to fulfill the contractual payment terms is fully expected, and, if the loan was past due when placed in nonaccrual status, has evidence of sustained performance in making on-time contractual payments (typically based on payment frequency).

Included within our loans are loan modifications. Loan modifications may be granted to borrowers experiencing financial difficulty. Modifications are one or a combination of principal forgiveness, an interest rate reduction, other-than-insignificant term extension or other-than-insignificant payment deferrals. Other-than-insignificant term extensions are defined as those greater than or equal to six months. Covenant waivers and modifications of contingent acceleration clauses are not considered term extensions. Other-than-insignificant payment deferrals are defined as cumulative or individual payment delays greater than or equal to six months.

Prior to January 1, 2023, in situations where, for economic or legal reasons related to the borrower's financial difficulties, we granted a concession for other than an insignificant period of time to the borrower that we would not otherwise consider, the related loan was classified as a troubled debt restructuring (TDR), also known as a formally restructured loan for regulatory purposes. A concession was generally granted to minimize economic loss and avoid foreclosure. Concessions varied by program and borrower, and may have included interest rate reductions, term extensions, payment deferrals or an acceptance of additional collateral in lieu of payments. In limited circumstances, principal may have been forgiven. Loans classified as TDRs were considered risk loans. There may have been modifications made in the normal course of business that were not considered TDRs.

Farm Credit Services of America, ACA

Notes to Consolidated Financial Statements

Loans that are sold as participations are transferred as entire financial assets, groups of entire financial assets or participating interests in the financial assets. The transfers of such assets or participating interests are structured such that control over the transferred assets or participating interests has been surrendered and that all conditions have been met to be accounted for as a sale.

Allowance for Credit Losses on Loans and Unfunded Commitments

Effective January 1, 2023, we adopted Accounting Standards Update 2016-13 “Financial Instruments – Credit Losses (Topic 326) – Measurement of Credit Losses on Financial Instruments (CECL).” This guidance established a single allowance framework for all financial assets measured at amortized cost and certain off-balance sheet credit exposures and replaced the incurred loss guidance. This framework requires that management’s estimate reflects credit losses over the asset’s remaining expected life and considers expected future changes in macroeconomic conditions and is referred to as the Current Expected Credit Losses (CECL) methodology. The allowance for credit losses comprises the allowance for credit losses on loans, unfunded commitments and investment securities.

The allowance for credit losses on loans and unfunded commitments represents the estimated current expected credit losses over the remaining contractual life of the portfolio, adjusted for expected prepayments and expected utilization of unfunded commitments. The allowance for credit losses takes into consideration relevant information about past events, current conditions and macroeconomic forecasts of future conditions. Multiple macroeconomic scenarios are considered over a reasonable and supportable forecast period, after which we revert to long-run historical economic conditions on an exponential basis. The contractual term excludes expected extensions, renewals and modifications unless the extension or renewal options are not unconditionally cancellable.

The allowance for credit losses on loans and unfunded commitments is increased through provisions for credit losses and loan recoveries and is decreased through provisions for credit loss reversals and loan charge-offs. The allowance for credit losses on unfunded commitments is included in “Other liabilities” in the Consolidated Statements of Condition. The provision activity is included as part of the “Provision for credit losses” in the Consolidated Statements of Income. See Note 3, “Loans and Allowance for Credit Losses on Loans” for further information.

Determining the appropriateness of the allowance is complex and requires judgment by management about the effect of matters that are inherently uncertain. Subsequent evaluations of the then existing loan portfolio, in light of the factors then prevailing, may result in significant changes in the allowance for credit losses in those future periods. Loans are evaluated on the amortized cost basis, including unamortized premiums and discounts. We utilize multiple macroeconomic scenarios – baseline, adverse and optimistic – over a reasonable and supportable forecast period of two years. Subsequent to the forecast period, we revert to long-run historical

economic conditions beyond the two years on an exponential basis to inform the estimate of losses for the remaining contractual life of the loan portfolio.

The economic forecasts incorporate macroeconomic variables including net farm income and agricultural commodity prices. Also considered are loan and borrower characteristics, such as internal risk ratings, delinquency status, collateral type and the remaining term of the loan, adjusted for expected prepayments. In addition to the quantitative calculation, we consider the imprecision inherent in the process and methodology, emerging risk assessments and other subjective factors, which may lead to a management adjustment to the modeled results. Expected credit loss estimates also include consideration of expected cash recoveries on loans previously charged off or expected recoveries on collateral-dependent loans where recovery is expected through sale of the collateral. The economic forecasts are updated on a quarterly basis.

We employ a disciplined process and methodology to establish the allowance for credit losses that has two basic components: first, an asset-specific component involving individual loans that do not share risk characteristics with other loans and the measurement of expected credit losses for such individual loans; and second, a pooled component for estimated expected credit losses for pools of loans that share similar risk characteristics.

The asset-specific approach only applies to nonperforming exposures. Asset-specific loans are generally collateral-dependent loans (including those loans for which foreclosure is probable) and nonaccrual loans. For an asset-specific loan, expected credit losses are measured as the difference between the amortized cost basis in the loan and the present value of expected future cash flows discounted at the loan’s effective interest rate. However, for collateral-dependent loans, credit loss is measured as the difference between the amortized cost basis of the loan and the fair value of the underlying collateral. The fair value of the collateral is adjusted for the estimated cost to sell if repayment or satisfaction of a loan is dependent on the sale (rather than only on the operation) of the collateral. In accordance with our appraisal policy, the fair value of collateral-dependent loans is based upon independent third-party appraisals or on collateral valuations prepared by in-house appraisers. When an updated appraisal or collateral valuation is received, management reassesses the need for adjustments to the loan’s expected credit loss measurements and, where appropriate, records an adjustment. If the calculated expected credit loss is determined to be permanent, fixed or non-recoverable, the credit loss portion of the loan will be charged off against the allowance for credit losses.

In estimating the component of the allowance for credit losses that share common risk characteristics, loans are evaluated collectively and segregated into loan pools considering the risk associated with the specific pool. Relevant risk characteristics include loan type, interest rate product, commodity, credit-quality rating, delinquency category or marketplace delivery or a combination of these characteristics. The allowance is determined based on a quantitative calculation of the expected life-of-loan loss percentage for each

Farm Credit Services of America, ACA

Notes to Consolidated Financial Statements

loan category by considering the probability of default, based on the migration of loans from performing to loss by credit-quality rating or delinquency buckets using historical life-of-loan analysis periods for loan types, and the severity of loss, based on the aggregate net lifetime losses incurred per loan pool. In addition to the quantitative calculation, we consider the imprecision inherent in the process and methodology, emerging risk assessments and other subjective factors, which may lead to a management adjustment to the modeled allowance for credit losses results. We have no qualitative adjustments in our current allowance.

The final credit loss estimate also may consider factors not reflected in the economic forecast and historical-loss experience due to the unique aspects of current conditions and expectations. These factors may include but are not limited to: lending policies and procedures; experience and depth of lending staff; credit quality and delinquency trends; individual borrower and industry concentrations; national, regional and local economic business conditions and developments; and collateral value trends.

Prior to January 1, 2023, the allowance for loan losses was an estimate of losses inherent in our loan portfolio as of the financial statement date. We determined the appropriate level of allowance for loan losses based on quarterly evaluation of factors such as loan loss history, estimated probability of default, estimated loss severity, portfolio quality, and current economic and environmental conditions. Refer to our 2022 annual report for additional information.

Accrued Interest Receivable

Accrued interest receivable on loans and investment securities are presented in the Consolidated Statements of Condition. Accrued interest receivable has been excluded from the footnote disclosures for all periods after January 1, 2023.

Investment Securities

We are authorized by the Farm Credit Administration to purchase and hold certain types of investments. As we have the positive intent and ability to hold these investments to maturity, they have been classified as held-to-maturity and are carried at amortized cost, net of allowance for credit losses on investment securities upon the adoption of CECL. Purchased premiums and discounts are amortized or accreted using the straight-line method.

Quarterly, we evaluate the investment portfolio for credit losses. For securities that are guaranteed by the United States government or other governmental agencies, we have not recognized an allowance for credit losses on investments. However, premiums on those investments are not guaranteed. Therefore, we evaluate them for credit losses and have not recognized an allowance for credit losses on them.

Investment in AgriBank, FCB

Accounting for our investment in AgriBank, FCB is on a cost plus allocated equities basis.

Investment in AgDirect, LLP

Accounting for our investment in AgDirect, LLP is on a cost basis.

Other Property Owned

We record other property owned, consisting of real and personal property acquired through a collection action, at fair value, less estimated selling costs at the time of acquisition. Any initial reduction in the carrying amount of a loan to the fair value of the collateral received is charged to the allowance for credit losses on loans. Revised estimates of the fair value, less estimated selling costs, are reported as adjustments to the carrying amount of the asset, provided that the adjusted value is not in excess of the carrying amount at acquisition. Related income, expenses and gains or losses from operations, and carrying-value adjustments are included in the "Other noninterest income" in the Consolidated Statements of Income.

Investment in Rural Business Investment Companies

The carrying amount of the investments in the Rural Business Investment Companies (RBIC), in which we are a limited partner and hold noncontrolling interests, are accounted for under the equity method. The investments are assessed for impairment. If impairment exists, losses are included in "Other noninterest income," in the Consolidated Statements of Income in the year of impairment.

Premises and Equipment

The carrying amount of premises and equipment is at cost, less accumulated depreciation. Calculation of depreciation is generally on the straight-line method over the estimated useful lives of the assets. Depreciation and maintenance and repair expenses are included in "Occupancy and equipment expense" in the Consolidated Statements of Income and improvements are capitalized.

Leases

We operate under an agreement with CoBank, ACB through which we purchase a participation in loans made by CoBank, ACB to FCL to fund capital markets leases, agricultural equipment leases and agricultural facilities leases that we originate. Under provisions of this agreement, FCL participates approximately 50.0 percent funding for these leases to CoBank, ACB, and CoBank, ACB participates a similar amount to us. Lease participations purchased under this agreement are included in "Loans" in the Consolidated Statements of Condition.

Farm Credit Services of America, ACA

Notes to Consolidated Financial Statements

Advance Conditional Payments

We are authorized under the Farm Credit Act to accept advance conditional payments from customers. We net the advance conditional payments against the customer's related loan balance to the extent that the real estate customer's loan balance exceeds the advance payments. The amount of commercial advance conditional payments accepted cannot exceed the commitment amount of the customer's note. We classify commercial advance conditional payments as "Other liabilities" in the Consolidated Statements of Condition because the limit on commercial advance conditional payments is based on note commitments. We pay interest on advance conditional payments and they are not insured. Advance conditional payments are primarily for customers who are required to maintain them as part of their loan agreement.

Employee Benefit Plans

Our employees participate in a defined contribution plan. Benefit plans are described in Note 10. The costs of the defined contribution plan are funded as accrued. Additionally, we provide a retiree health care benefit to retired employees who met specific hire-date and years-of-service requirements.

Income Taxes

The ACA and PCA accrue federal and state income taxes. Deferred tax assets and liabilities are recognized for future tax consequences of temporary differences between the carrying amounts and tax basis of assets and liabilities. Deferred tax assets are recorded if the deferred tax asset is more likely than not to be realized. If the realization test cannot be met, the deferred tax asset is reduced by a valuation allowance. The expected future tax consequences of uncertain income tax positions are accrued.

The FLCA is exempt from federal and other taxes to the extent provided in the Farm Credit Act.

Patronage Program

We accrue an estimated patronage payable after it is declared by the Board of Directors, normally in December of each year. After year-end eligible average daily balances are calculated, we record a patronage accrual adjustment in the year of payment. We generally pay the accrued patronage in the first quarter of the subsequent year. Cash patronage distributions are referred to as cash-back dividends.

Statement of Cash Flows

For purposes of reporting cash flow, cash includes cash on hand and on deposit at commercial banks.

Off-Balance Sheet Credit Exposures

Commitments to extend credit are agreements to lend to customers, generally having fixed expiration dates or other termination clauses. Standby letters of credit are agreements to pay a beneficiary if there is a default on a contractual arrangement. Commercial letters of credit are agreements to pay a beneficiary under specific conditions. We evaluate the need for an allowance for credit losses on unfunded commitments, which is included in "Other liabilities" in the Consolidated Statements of Condition. For more information, see the "Allowance for Credit Losses on Loans and Unfunded Commitments" in the Summary of Significant Accounting Policies section of this report.

Fair Value Measurement

The Financial Accounting Standards Board guidance on "Fair Value Measurements" describes three levels of inputs that may be used to measure fair value.

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

Level 2: Observable inputs, other than quoted prices included within Level 1, that are observable for the asset or liability either directly or indirectly. Level 2 inputs include the following:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in markets that are not active so that they are traded less frequently than exchange-traded instruments, quoted prices that are not current, or principal market information that is not released publicly;
- inputs that are observable such as interest rates and yield curves, prepayment speeds, credit risks and default rates; and
- inputs derived principally from, or corroborated by, observable market data by correlation or other means.

Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. These unobservable inputs reflect our own judgments about assumptions that market participants would use in pricing the asset or liability. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flow methodologies or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

Farm Credit Services of America, ACA

Notes to Consolidated Financial Statements

Recently Issued or Adopted Accounting Pronouncements

We have assessed the potential impact of accounting standards that have been issued by the Financial Accounting Standards Board and have determined the following standards to be applicable to our business. While we are a nonpublic business entity, our financial results are closely related to the performance of the combined Farm Credit System. Therefore, we typically adopt accounting pronouncements in alignment with other Farm Credit System institutions.

Standard and Effective Date	Description	Financial Statement Impact
In June 2016, the Financial Accounting Standards Board issued ASU 2016-13, "Financial Instruments – Credit Losses (Topic 326) – Measurement of Credit Losses on Financial Instruments." The guidance was originally effective for non-U.S. Securities and Exchange Commission filers for our first quarter of 2021. In November 2019, the Financial Accounting Standards Board issued ASU 2019-10, which amended the mandatory effective date for this guidance for certain institutions. We qualified for the deferral of the mandatory effective date. As a result of the change, the standard was effective for our first quarter of 2023 and early adoption was permitted. Additionally, the Financial Accounting Standards Board issued several updates during 2019 refining and clarifying Topic 326.	This guidance replaced the incurred loss impairment methodology with a methodology that reflects expected credit losses and requires consideration of a broader range of reasonable and supportable information to inform credit loss estimates.	<p>We adopted the standard and related updates as of January 1, 2023. As a result of adoption of this guidance, the allowance for credit losses on loans increased by \$14 million and the allowance for credit losses on unfunded commitments decreased by \$2 million with a cumulative-effect decrease, net of tax balances, to retained earnings of \$12 million.</p> <p>The adoption of the standard did not have a material impact related to our held-to-maturity investment portfolio, as all of these investments carry a full faith and credit guarantee of the United States government and have an immaterial risk of credit loss. No allowance for credit losses was recognized in relation to our investment portfolio upon adoption.</p>
In March 2022, the Financial Accounting Standards Board issued ASU 2022-02 "Financial Instruments – Credit Losses (Topic 326) – Troubled Debt Restructurings and Vintage Disclosures." The guidance was effective at the same time that ASU 2016-13 was adopted.	This guidance eliminated the accounting guidance for troubled debt restructurings by creditors in Subtopic 310-40, "Receivables – Troubled Debt Restructurings by Creditors," while enhancing disclosure requirements for certain loan refinancings and restructurings. The expanded Vintage Disclosures are not applicable to nonpublic business entities.	<p>We adopted the standard on January 1, 2023. The adoption of this guidance did not have a material impact on our financial statements but will modify certain disclosures beginning in 2023. However, modifications during the period were not material; therefore, related disclosures have been omitted from this report.</p>

Rural residential real estate	641,926	1.7	830,775	2.2	966,931	2.7
Agricultural export finance	125,468	0.3	126,198	0.3	89,358	0.3
Other	1,102,635	2.9	854,666	2.2	579,240	1.6
Total loans	\$38,646,868	100.0%	\$38,310,415	100.0%	\$35,719,890	100.0%

The “Other” category is primarily composed of certain assets characterized as mission-related investment loans and U.S. Department of Agriculture guaranteed loans.

Throughout the remaining Note 3 tables, accrued interest receivable on loans of \$571.9 million at December 31, 2023, has been excluded from the amortized cost of loans and is presented in “Accrued interest receivable” in the Consolidated Statements of Condition.

Loan concentrations exist when there are amounts loaned to multiple borrowers engaged in similar activities or within close proximity, which could cause them to be similarly impacted by economic or other conditions. We lend primarily within agricultural industries.

As of December 31, 2023, amortized cost on loans plus commitments, excluding government-guaranteed portions of loans, to our 10 largest borrowers totaled an amount equal to 3.0 percent of total loans and commitments.

While the amounts represent our maximum potential credit risk related to recorded loan principal plus unfunded commitments, a substantial portion of our lending activities is collateralized, which reduces our exposure to credit loss associated with lending activity. We include an estimate of our credit-risk exposure in determining the allowance for loan losses.

The amount of collateral obtained, if deemed necessary upon extension of credit, is based on our credit evaluation of the borrower. Collateral held varies by loan type but typically includes agricultural real estate, equipment, crop inventory and livestock, and income-producing property. Long-term real estate loans are secured by a first lien on the underlying real property.

Farm Credit Services of America, ACA

Notes to Consolidated Financial Statements

We may purchase or sell participation interests with other parties to diversify risk, manage loan volume or comply with the limitations of the Farm Credit Administration regulations or the General Financing Agreement with AgriBank, FCB. The following table presents information regarding participations purchased and sold (participations purchased do not include syndications; dollars in thousands):

Farm Credit Services of America, ACA

Notes to Consolidated Financial Statements

Participations purchased increased by \$1.9 billion in 2023, and participations sold increased by \$3.7 billion. The participations purchased increase is primarily due to increased purchase activity in all portfolios. The participations sold increase is due to the participation interests we sold to AgriBank, FCB on November 1, 2023, as described in more detail below.

On October 1, 2008, we sold a pool of approximately \$1.9 billion of real estate loans to AgriBank, FCB. AgriBank, FCB established a separate patronage pool for these assets. Patronage declared on this pool has been solely at the discretion of the AgriBank, FCB Board of Directors. We provided servicing for the loans in the pool, and AgriBank, FCB paid us a fee for this servicing. As part of this transaction, we purchased additional common stock in AgriBank, FCB equal to 8.0 percent of the pool assets. In 2021, per contractual conditions, we repurchased AgriBank, FCB's participation interests in these real estate pooled loans totaling \$175 million and, therefore, did not receive patronage income for it in 2023 or 2022. In 2021, we received \$3.1 million of asset pool patronage in cash and \$75 thousand in asset pool patronage in stock related to this participation.

On December 1, 2019, we sold a pool of approximately \$104 million of real estate loans to AgriBank, FCB. The sale was intended to enhance our portfolio credit quality. AgriBank, FCB established a separate patronage pool for these assets. Patronage declared on this pool was solely at the discretion of the AgriBank, FCB Board of Directors. We provided servicing for the loans in the pool, and AgriBank, FCB paid us a fee for this servicing. As part of this transaction, we purchased additional common stock in AgriBank, FCB. In 2023, we repurchased AgriBank, FCB's participation interests in these pooled loans totaling \$58.2 million. We received \$467 thousand of asset pool cash patronage in 2023. At December 31, 2022, the volume was \$61.1 million. We received \$331 thousand of asset pool cash patronage in 2022. At December 31, 2021, the volume was \$66.7 million. We received \$500 thousand of asset pool cash patronage in 2021.

In December 2020, we participated approximately \$273.2 million of long-term agricultural mortgage loans to CoBank, ACB. We continue to be the lead lender and servicer of the loans, and we receive a servicing fee from CoBank, ACB based on the average daily balance of the participated loans. The balance of these participations at December 31, 2023, was \$217.7 million. In 2023, we received \$4.1 million in cash patronage and \$1.1 million in stock patronage for these participations. In 2022, we received \$4.5 million in cash patronage and \$1.3 million in stock patronage for these participations. In 2021, we received \$177 thousand in cash patronage and \$416 thousand in stock patronage for these participations.

On November 1, 2023, we sold AgriBank, FCB participation interests and unfunded commitments totaling \$4.5 billion, with funded balances of \$3.5 billion, representing a participation interest across certain sectors of our loan portfolio. AgriBank, FCB has established a separate patronage pool for these assets. Patronage declared on this pool is solely at the discretion of the AgriBank, FCB Board of Directors. We provide servicing for the loans in the pool, and AgriBank, FCB pays us a fee for this servicing. As part of this transaction, we purchased additional common stock in AgriBank, FCB equal to 8.0 percent of the pool assets. The volume in this pool of assets at December 31, 2023 was \$3.5 billion. We received \$11.3 million in cash patronage and \$842 thousand in stock patronage in 2023.

We utilize the Farm Credit Administration Uniform Classification System, which categorizes loans into five categories. The categories define loans as:

- acceptable — non-criticized loans representing the highest quality. These loans are expected to be fully collectible. This category is further differentiated into various probabilities of default.
- other assets especially mentioned (OAEM) — currently collectible but exhibit some potential weakness. These loans involve increased credit risk, but not to the point of justifying a substandard classification.
- substandard — exhibit some serious weakness in repayment capacity, equity and/or collateral pledged on the loan
- doubtful — exhibit similar weaknesses to substandard assets. However, doubtful assets have additional weaknesses in existing factors, conditions and values that make collection in full highly questionable
- loss — considered uncollectible.

We had no loans categorized as loss at December 31, 2023, 2022 or 2021.

Farm Credit Services of America, ACA

Notes to Consolidated Financial Statements

Prior to adoption of CECL, which was effective January 1, 2023, accruing loans included accrued interest receivable.

Farm Credit Services of America, ACA

Notes to Consolidated Financial Statements

Our adversely classified assets increased during 2023, ending the year at 1.96 percent of the portfolio compared to 1.63 percent and 3.01 percent of the portfolio at December 31, 2022 and 2021, respectively.

Credit risk arises from the potential inability of a borrower to meet their payment obligation and exists in our outstanding loans, letters of credit and unfunded loan commitments. We manage credit risk associated with our lending activities through an analysis of the credit-risk profile of an individual borrower based on established underwriting standards and lending policies, approved by our Board of Directors. The credit-risk management process begins with an analysis of the borrower's credit history, repayment capacity, financial position and collateral, which includes an analysis of credit scores for smaller loans. Repayment capacity focuses on the borrower's ability to repay the loan based on cash flows from operations or other sources of income, including off-farm income. Real estate mortgage loans must be secured by first liens on the real estate. As required by the Farm Credit Administration's regulations, each institution that makes loans on a secured basis must have collateral-evaluation policies and procedures. Real estate mortgage loans may be made only in amounts up to 85 percent of the original appraised value of the property taken as security or up to 97 percent of the appraised value if guaranteed by a state, federal or other governmental agency. The actual loan-to-appraised value when loans are made is generally lower than the statutory maximum percentage. Loans other than real estate mortgage may be made on a secured or unsecured basis.

We use a two-dimensional risk-rating model that is based on an internally generated combined System-risk-rating guidance that incorporates a 14-point probability-of-default rating scale to identify and track the probability of borrower default and a separate scale addressing loss given default. Probability of default is the probability that a borrower will experience a default during the life of the loan. The loss given default is our estimate of anticipated principal loss on a specific loan assuming default occurs during the remaining life of the loan. A default is considered to have occurred if the lender believes the borrower will not be able to pay his or her obligation in full or the borrower or the loan is classified as nonaccrual. This credit-risk rating process incorporates objective and subjective criteria to identify inherent strengths, weaknesses and risks in a particular relationship. We review the probability-of-default category at least on an annual basis or when a credit action is taken.

Each of the probability-of-default categories carries a distinct percentage of default probability. The probability-of-default rate between one and nine of the acceptable categories is very narrow, reflecting almost no default to a minimal default percentage. The probability-of-default rate grows more rapidly as a loan moves from "acceptable" to "other assets especially mentioned" and grows significantly as a loan moves to a "substandard" (viable) level. A "substandard" (non-viable) rating indicates the probability of default is almost certain.

Farm Credit Services of America, ACA

Reversals of interest income on loans that moved to nonaccrual status were not material for the year ended December 31, 2023.

Farm Credit Services of America, ACA

Notes to Consolidated Financial Statements

Included within our loans are loan modifications, some of which are granted to borrowers experiencing financial difficulty. Those classified as modified loans at December 31, 2023, and activity on these loans during the year ended December 31, 2023, were not material. We did not have any material commitments to lend to borrowers whose loans have been modified during the year ended December 31, 2023.

We utilize multiple macroeconomic scenarios, including base, adverse and optimistic, in the estimate of allowance for credit losses during a reasonable and supportable forecast period of two years. We revert to long-run historical economic conditions on an exponential basis to inform the estimate of losses for the remaining contractual life of the loan portfolio.

A summary of changes in the allowance for credit losses on loans and unfunded commitments follows (dollars in thousands):

Allowance for Credit Losses on Loans	December 31,		
	2023	2022	2021
Balance at beginning of year	\$58,000	\$75,000	\$152,000

Loans charged off	(53,043)	(712)	(3,104)
Recoveries	4,001	1,870	3,335
Balance at end of year	\$82,000	\$58,000	\$ 75,000

Allowance for Credit Losses on Unfunded Commitments	December 31,		
	2023	2022	2021
Balance at beginning of year	\$12,000	\$12,000	\$14,000
Cumulative effect of change in accounting principle	(2,000)	—	—
Provision for credit losses on unfunded commitments	4,000	—	(2,000)
Balance at end of year	\$14,000	\$12,000	\$12,000
Total allowance for credit losses	\$96,000	\$70,000	\$87,000

The 2023 change in the allowance for credit losses on loans from December 31, 2022, was primarily driven by growth in our loan portfolio, increased specific reserves, loan charge-offs and our CECL cumulative effect adjustment.

Farm Credit Services of America, ACA

Notes to Consolidated Financial Statements

A summary of changes in the allowance for credit losses on loans by loan type (dollars in thousands):

	Balance at December 31, 2022	Cumulative Effect of Change in Accounting Principle	Loan Recoveries	Loan Charge-Offs	Provision for Credit Losses on Loans	Balance at December 31, 2023

Previously Required Disclosures

The disclosures in this section were required prior to January 1, 2023. Upon the adoption of CECL, these disclosures are no longer required prospectively.

Risk loans are loans for which it is probable that all principal and interest will not be collected according to the contractual terms. The following table presents information concerning the recorded investment in risk loans (dollars in thousands):

	December 31,	
	2022	2021
Nonaccrual loans:		
Current as to principal and interest	\$ 62,764	\$ 88,286
Past due	21,989	14,376
Total nonaccrual loans	84,753	102,662
Impaired accrual loans:		
Restructured	37,036	30,696
90 days or more past due	12,673	6,203
Total risk loans	\$134,462	\$139,561

Note: Accruing loans include accrued interest receivable.

	Year Ended December 31,	
	2022	2021
Interest income recognized on nonaccrual loans	\$188	\$1,712
Interest income recognized on risk accrual loans	686	2,339
Interest income recognized on risk loans	\$874	\$4,051

Farm Credit Services of America, ACA

Notes to Consolidated Financial Statements

Prior to the adoption of CECL, a restructuring of a loan constituted a troubled debt restructuring, also known as formally restructured, if the creditor, for economic or legal reasons related to the borrower's financial difficulties, granted a concession to the borrower that it would not consider otherwise. Concessions varied by program and were borrower-specific and could include interest rate reductions, term extensions, payment deferrals or the acceptance of additional collateral in lieu of payments. In limited circumstances, principal may have been forgiven.

The following table presents information regarding troubled debt restructurings that occurred during the year ended December 31 (dollars in thousands):

	Premodification Outstanding Recorded Investment	Postmodification Outstanding Recorded Investment
2022		
Production and intermediate term	\$74	\$74
Total	\$74	\$74
2021		
Production and intermediate term	\$588	\$488
Total	\$588	\$488

Premodification represents the outstanding recorded investment just prior to restructuring, and postmodification represents the outstanding recorded investment immediately following the restructuring. The recorded investment is the unpaid principal amount of the receivable increased or decreased by applicable accrued interest and unamortized premium, discount, finance charges or acquisition costs, and may also reflect a previous direct write-down of the investment.

We had no troubled debt restructurings that defaulted during the years ended December 31, 2022, or 2021, in which the modification was within the 12 months of the respective reporting period.

There were \$2.3 million in additional commitments to lend to borrowers whose loans have been modified in a troubled debt restructuring at December 31, 2022.

The following table provides the troubled debt restructurings (TDRs) outstanding (accruing volume includes accrued interest receivable; dollars in thousands):

As of December 31,	2022	2021
Accrual status:		
Long-term agricultural mortgage	\$20,181	\$21,054
Production and intermediate term	10,152	9,594
Agribusiness	6,703	—
Rural residential real estate	—	48
Total TDRs in accrual status	\$37,036	\$30,696
Nonaccrual status:		
Long-term agricultural mortgage	\$ 392	\$ 459
Production and intermediate term	449	589
Agribusiness	316	7,256
Total TDRs in nonaccrual status	\$1,157	\$8,304
Total TDRs:		
Long-term agricultural mortgage	\$20,573	\$21,513
Production and intermediate term	10,601	10,183
Agribusiness	7,019	7,256
Rural residential real estate	—	48
Total TDRs	\$38,193	\$39,000

Notes to Consolidated Financial Statements

Note 4 – Investment in AgriBank, FCB

As of December 31, 2023, we were required by AgriBank, FCB to maintain an investment equal to 3.0 percent of the average quarterly balance of our note payable. We also are required to hold AgriBank, FCB stock based on a contractual agreement under any asset pool program in which we participate. The required investment amount varies by asset pool program and is generally a percentage of the loan balance in the pool.

AgriBank, FCB's capital plan provides for annual retirement of AgriBank, FCB stock and optimizes capital at AgriBank, FCB by distributing all available AgriBank, FCB earnings in the form of patronage, either in cash or stock. The plan is designed to maintain capital adequacy such that sufficient earnings will be retained in the form of allocated retained earnings and allocated stock to meet the leverage ratio target and other regulatory or policy constraints prior to any cash patronage distributions.

At December 31, 2023, our investment in AgriBank, FCB was \$1.4 billion, of which \$565.7 million consisted of stock representing distributed AgriBank, FCB surplus and \$833.5 million consisted of purchased investment. For the periods presented in this annual report, we have received no dividend income on this stock investment, and we do not anticipate any in future years.

The balance of our investment in AgriBank, FCB was \$1.4 billion, \$958.3 million and \$777.4 million at December 31, 2023, 2022 and 2021, respectively.

Note 5 – Investment Securities

We held investment securities of \$772.4 million at December 31, 2023, \$175.9 million at December 31, 2022, and no investment securities at December 31, 2021. Our investment securities consisted of pools of loans guaranteed by the U.S. Small Business Administration (SBA). Our investments are either mortgage-backed securities (MBS), which are generally longer-term investments, or asset-backed securities (ABS), which are generally shorter-term investments.

All of our investment securities were fully guaranteed by the SBA at December 31, 2023. Premiums paid to purchase the investments are not guaranteed and are amortized as a reduction of interest income.

Our investment securities are classified as held-to-maturity. Effective January 1, 2023, we adopted CECL, which amended the previous other-than-temporary impairment model for investment securities to incorporate an allowance for credit losses on investment securities. There was no allowance for credit losses on our investment securities at December 31, 2023. Prior to January 1, 2023, the investment portfolio was evaluated for other-than-temporary impairment. No investments were impaired at December 31, 2022.

Additional Investment Securities Information (dollars in thousands):

As of December 31, 2023	Amortized Cost
MBS	\$624,278
ABS	148,168
Total	<u>\$772,446</u>

Accrued interest receivable on investment securities is presented in "Accrued interest receivable" in the Consolidated Statements of Condition and was \$9.8 million and \$1.6 million at December 31, 2023, and 2022, respectively.

Investment income is recorded in "Interest income" in the Consolidated Statements of Income and totaled \$38.6 million and \$1.2 million in 2023 and 2022, respectively. We had no investment income in 2021.

Contractual Maturities of Investment Securities (dollars in thousands):

Farm Credit Services of America, ACA

Notes to Consolidated Financial Statements

Note 6 – Investment in AgDirect, LLP

We have entered into agreements with 14 other Farm Credit System Associations inside and outside the AgriBank, FCB District to provide access to our AgDirect trade credit financing program. The AgDirect program includes origination and refinancing of agricultural equipment loans and leases through independent equipment dealers. The Farm Credit Administration has approved requests from these Associations to invest in a limited liability partnership (LLP) that facilitates this collaborative AgDirect trade credit financing program and allows us to leverage the AgDirect, LLP program for the mutual benefit of our Associations and the farmers and ranchers we collectively serve. Our investment is reflected as “Investment in AgDirect, LLP” in our Consolidated Statements of Condition. The LLP is an unincorporated business entity and purchases participations in AgDirect loans from us that were originated under the agreements described earlier. The LLP subsequently sells a like amount of loan participations to AgriBank, FCB. The LLP pays us a fee for originating these loans. Total outstanding participations sold to the LLP at December 31, 2023, were \$5.1 billion compared to \$5.1 billion at December 31, 2022, and \$5.4 billion at the end of 2021. AgriBank, FCB, at the discretion of its Board of Directors, pays patronage on these loan participations to AgDirect, LLP. Any patronage declared is accrued quarterly and paid by AgriBank, FCB in the first month of the subsequent quarter. AgDirect, LLP distributes any patronage paid by AgriBank, FCB as partnership distributions to the AgDirect, LLP partners. At December 31, 2023, our investment in AgDirect, LLP was \$128.1 million.

Note 7 – Premises and Equipment

Premises and equipment consisted of the following (dollars in thousands):

	December 31,		
	2023	2022	2021
Land, buildings and improvements	\$290,064	\$283,855	\$281,654
Construction/improvements in progress	12,378	5,193	131
Furniture and equipment	73,963	87,015	86,857
	376,405	376,063	368,642
Less accumulated depreciation	144,218	148,320	131,515
Premises and equipment, net	\$232,187	\$227,743	\$237,127

Note 8 – Notes Payable

The notes payable to AgriBank, FCB represents borrowings to fund our net assets. This indebtedness is collateralized by a pledge of substantially all our assets and is governed by a General Financing Agreement. AgriBank, FCB has established a \$38 billion revolving line of credit for us that is renegotiated prior to the maturity date of June 30, 2026. Our revolving lines of credit with AgriBank, FCB in 2022 and 2021 were \$36 billion. The interest rate is periodically adjusted by AgriBank, FCB, and at December 31, 2023, was 3.75 percent compared to 2.99 and 1.35 percent for the years ended December 31, 2022 and 2021, respectively. The consolidated notes payable balance is presented in the following table (dollars in thousands):

	December 31,		
	2023	2022	2021
Notes payable to AgriBank, FCB	\$33,516,275	\$32,580,841	\$30,140,612

Under the Farm Credit Act, we are obligated to borrow only from AgriBank, FCB unless AgriBank, FCB approves borrowing from other funding sources. AgriBank, FCB, consistent with Farm Credit Administration regulations, has established limitations on our ability to borrow funds based on specified factors or formulas relating primarily to outstanding balances, credit quality and financial condition. Additionally, we have requirements to maintain an effective program of internal controls over financial reporting. At December 31, 2023, we were within the specified limitations.

Farm Credit Services of America, ACA

Notes to Consolidated Financial Statements

Note 9 – Members’ Equity

A description of our capitalization requirements, protection mechanisms, regulatory capitalization requirements and restrictions, and equities follows.

Capital Stock

In accordance with the Farm Credit Act, as amended, each borrower is required to invest in us as a condition of obtaining a loan. As authorized by the Agricultural Credit Act and our capital bylaws, our Board of Directors has adopted a capital plan that establishes a stock purchase requirement for obtaining a loan equal to \$1 thousand or 2.0 percent of the amount of the collective total balance of each borrower’s loan(s) with us, whichever is less. Our Board of Directors may increase the amount of required investment, if necessary, to meet capital needs and to the extent authorized in the capital bylaws. The stock requirement for loan customers is generally \$1 thousand, and stock is issued to each loan co-maker (includes primary borrower and any co-borrowers; does not include guarantors). Non-loan customers purchasing financially related services from the Association continue to purchase one \$5 share of stock.

The member acquires ownership of capital stock or participation certificates at the time the loan is made. Loan co-makers who do not currently own stock will acquire stock when a new loan is originated or a loan servicing action takes place. Members are not currently required to make a cash investment to acquire capital stock or participation certificates. However, their obligation to pay for the capital stock or participation certificates is maintained as an interest-free obligation and will only be due in the unlikely event that the Association does not meet regulatory capital requirements.

The capital stock and participation certificates are at-risk investments as described in our capital bylaws. We retain a first lien on common stock or participation certificates owned by our members. Stock is retired in accordance with our bylaws. Members are responsible for payment of the cash investment upon demand by us.

Regulatory Capitalization Requirements and Ratios

	As of December 31,			Regulatory	Minimums
	2023	2022	2021	Minimums	With Buffers
Risk-adjusted ratios:					
Common equity Tier 1	14.18%	14.82%	15.82%	4.5%	7.0%
Tier 1 capital	14.18%	14.82%	15.82%	6.0%	8.5%
Total capital	14.42%	15.00%	16.06%	8.0%	10.5%
Permanent capital	14.21%	14.84%	15.85%	7.0%	7.0%
Non-risk-adjusted ratios:					
Tier 1 leverage	15.66%	16.42%	17.14%	4.0%	5.0%
UREE leverage	15.66%	16.42%	18.20%	1.5%	1.5%

Risk-adjusted assets have been defined by the Farm Credit Administration regulations as the Statement of Condition assets and off-balance sheet commitments adjusted by various percentages, depending on the level of risk inherent in the various types of assets.

Risk-adjusted assets are calculated differently for the permanent capital ratio compared to the other risk-based capital ratios. The primary difference is the inclusion of the allowance for credit losses on loans as a deduction to risk-adjusted assets for the permanent capital ratio.

Farm Credit Services of America, ACA

Notes to Consolidated Financial Statements

These ratios are based on a three-month average daily balance in accordance with Farm Credit Administration regulations and are calculated as follows (not all items may be applicable to our Association):

- Common equity Tier 1 ratio is statutory minimum purchased member stock, other required member stock held for a minimum of seven years, allocated equities held for a minimum of seven years or not subject to retirement, unallocated retained earnings as regulatorily prescribed, paid-in capital, less certain regulatory-required deductions including the amount of allocated investments in other System institutions, and the amount of purchased investments in other System institutions under the corresponding deduction approach, divided by average risk-adjusted assets.
- Tier 1 capital ratio is common equity Tier 1 plus noncumulative perpetual preferred stock, divided by average risk-adjusted assets.
- Total capital is Tier 1 capital plus other required member stock held for a minimum of five years, allocated equities held for a minimum of five years, subordinated debt and limited-life preferred stock greater than five years to maturity at issuance subject to certain limitations, allowance for credit losses on loans and allowance for credit losses on unfunded commitments subject to certain limitations, less certain investments in other System institutions under the corresponding deduction approach, divided by average risk-adjusted assets.
- Permanent capital ratio is all at-risk borrower stock, any allocated excess stock, unallocated retained earnings as regulatorily prescribed, paid-in capital, subordinated debt and preferred stock subject to certain limitations, less certain allocated and purchased investments in other System institutions, divided by permanent capital ratio risk-adjusted assets.
- Tier 1 leverage ratio is Tier 1 capital, including regulatory deductions, divided by average assets, less regulatory deductions subject to Tier 1 capital.
- UREE leverage ratio is unallocated retained earnings as regulatorily prescribed, paid-in capital, allocated surplus not subject to retirement, less certain regulatory-required deductions including the amount of allocated investments in other System institutions, divided by average assets, less regulatory deductions subject to Tier 1 capital.

If the capital ratios fall below the total requirements, including the buffer amounts, capital distributions (equity redemptions, dividends and patronage) and discretionary senior executive bonuses are restricted or prohibited without prior Farm Credit Administration approval.

Description of Equities

The following table presents information regarding the classes and number of shares of stock outstanding as of December 31. All shares are at-risk and have a par or stated value of \$5 per share.

	Shares Outstanding as of December 31,		
	2023	2022	2021
Class D common stock	19,208,018	19,082,567	19,213,644
Class E common stock	771,567	745,315	753,259

Our bylaws authorize us to issue an unlimited number of shares of Class D common stock and Class E common stock with a par or stated value of \$5 per share.

Class D common stock is voting and is issued solely to a farmer, rancher, or producer or harvester of aquatic products. Class E common stock has no voting rights and is issued to customers to capitalize rural-home and farm-related business loans or to become eligible for financial services. Class D common stock and Class E common stock may be retired at the discretion of the Board of Directors, at book value not to exceed par, provided we meet minimum capital adequacy standards under Farm Credit Administration regulations. At December 31, 2023, we exceeded the prescribed standards. We do not anticipate any significant changes in capital that would affect the normal retirement of stock.

Subject to our policies, Class D and Class E common stock are transferable to any person eligible to hold the respective class of stock. Class D common stock and Class E common stock cannot be transferred when we do not meet capital adequacy standards under Farm Credit Administration regulations.

At any time within two years after the loan of a customer is repaid in full, any voting stock held by the customer is converted to nonvoting stock. The nonvoting stock may be converted back to voting stock if the owner of the stock borrows additional funds.

Farm Credit Services of America, ACA

Notes to Consolidated Financial Statements

As determined by the Board of Directors, we may declare dividends in stock, cash or any combination, provided we meet capital adequacy standards under Farm Credit Administration regulations and no stock is impaired. Losses that result in impairment of stock and participation certificates will be allocated ratably to stock and participation certificates. In the event we would liquidate or dissolve, any assets remaining after payment or retirement of all liabilities would be distributed to the holders of stock in the following order of priority:

- first, to the holders of common stock and participation certificates, equally and pro rata in proportion to the number of shares or units of common stock and participation certificates issued and outstanding, until an amount equal to the aggregate par or stated value of all common stock and participation certificates has been distributed;
- second, to the holders of allocated surplus pro rata, on the basis of oldest allocations first, until an amount equal to the total account has been distributed; and
- third, any remaining assets would be distributed among current and former stockholders in the proportion that the aggregate patronage of each stockholder bears to the total patronage of all current and former stockholders, to the extent practicable and as determined by the Board unless otherwise provided by law.

Patronage Distributions

For 2023, the Board of Directors declared cash patronage distributions, based on each customer's average daily balance of eligible loans outstanding during the year. Our Board of Directors may authorize a distribution of earnings provided we meet all statutory and regulatory requirements. Our patronage program is a distribution of earnings to our eligible stockholders and is a qualified (cash) distribution referred to as a cash-back dividend. We accrued \$357.0 million in December 2023 to be paid in 2024. In 2022, we accrued a total of \$341.0 million and \$296.5 million in 2021.

Note 10 – Employee Benefit Plans

We participate in the benefits plans administered by Farm Credit Foundations, a service corporation for Farm Credit System entities. The Farm Credit Foundations Plan Sponsor and Trust Committees provide oversight of the benefit plans of which we are a participating employer. These governance committees comprise of either elected or appointed representatives (senior leadership and/or Board of Director members) from the participating organizations. The Plan Sponsor Committee is responsible for employer decisions regarding all benefit plans, including retirement benefits. These decisions could include plan design changes, vendor changes, determination of employer subsidies (if any) and termination of specific benefit plans. Any action to change or terminate the retirement plan can occur only at the direction of the AgriBank, FCB District participating employers. The Trust Committee is responsible for fiduciary and plan

administrative functions. The Association has a senior officer who serves on each committee and a director who serves on the Plan Sponsor Committee.

Under the alliance agreement described in Note 1, the 2023 benefits expense of \$73.7 million was shared between the Association and Frontier Farm Credit on a 93.9 percent and 6.1 percent basis, respectively, which excluded any Frontier Farm Credit pension plans expense in excess of the Association's retirement programs. The employee benefits expense is included in the "Salaries and employee benefits" in the Consolidated Statements of Income.

Defined Contribution Plan

The Association participates in the Farm Credit Foundations Defined Contribution/401(k) Plan for benefits-eligible employees. The plan is a qualified plan up to the limits provided under the Internal Revenue Code.

The Association matches the employee's contributions dollar for dollar up to a maximum of 6.0 percent of the employee's compensation on both pretax and post-tax contributions. Additionally, our Association contributes a fixed 3.0 percent of the employee's compensation to the plan. For employees hired prior to January 1, 1991, the percentage is based on the employee's years of service and is a fixed contribution that does not change from year to year.

For employees hired prior to January 1, 2007, an additional amount known as the Integrated Employer Non-Elective Contribution is made to the plan for the portion of compensation exceeding the Federal Insurance Contributions Act tax base (Social Security tax limit).

Nonqualified Deferred Compensation Plan

The Farm Credit Foundations Nonqualified Deferred Compensation Plan serves two purposes. The plan provides for employer-matching or fixed contributions that exceed the Internal Revenue Code limits of the Defined Contribution Plan. Additionally, eligible employees may defer a portion of their base salary, variable pay and other compensation into this plan. Under the plan, eligible participants include the chief executive officer and other employees who meet certain compensation thresholds as determined by the Internal Revenue Code.

Pre-409A Frozen Nonqualified Deferred Compensation Plan

We also participate in the Farm Credit Foundations Pre-409A Frozen Nonqualified Deferred Compensation Plan. This plan serves the same purposes as the Nonqualified Deferred Compensation Plan. However, the plan was frozen effective January 1, 2007. As such, no additional participants are eligible to enter the plan and no additional employer contributions are made to the plan.

Farm Credit Services of America, ACA

Notes to Consolidated Financial Statements

Retiree Health Care

The Association participates in the Farm Credit Foundations Retiree Medical Plan. The plan benefits are available to retired employees who met specific age and service requirements. Employees hired January 1, 2002, or later are not eligible for the subsidy. The anticipated costs of these benefits were accrued during the period of the employee's active service. The related expense is not considered material to our financial position.

Defined Benefit Pension Plan

The Association does not have any defined benefit pension plan or supplemental pension plans for the chief executive officer, senior officers or any employees; therefore, there is no current or future liability for such plans.

Note 11 – Income Taxes

Our provision for income taxes follows (dollars in thousands):

	Year Ended December 31,		
	2023	2022	2021
Current:			
Federal	\$6,084	\$4,549	\$ 7,303
State	1,499	1,204	2,222
Total current	\$7,583	\$5,753	\$ 9,525
Deferred:			
Federal	\$ (134)	\$ 412	\$ (945)
State	220	16	(289)
Total deferred	\$ 86	\$ 428	\$(1,234)
Total provision for income taxes	\$7,669	\$6,181	\$ 8,291

The following table reconciles the differences between the provision for income taxes and income taxes at the statutory rates (dollars in thousands):

	Year Ended December 31,		
	2023	2022	2021
Federal tax at statutory rate	\$ 169,409	\$ 159,633	\$ 164,086
State tax, net	651	1,378	1,866
Tax effect of:			
Exempt FLCA earnings	(147,233)	(135,508)	(136,056)
Decrease (Increase) in valuation allowance	2,554	(1,772)	(1,818)
Patronage distribution	(18,438)	(17,534)	(18,539)
Other	726	(16)	(1,248)
Provision for income taxes	\$ 7,669	\$ 6,181	\$ 8,291

The following table provides the components of deferred tax assets and liabilities (dollars in thousands):

	Year Ended December 31,		
	2023	2022	2021
Allowance for credit losses on loans	\$ 6,165	\$ 5,587	\$ 6,103
Nonaccrual loan interest	2,748	2,555	2,684
AgDirect, LLP servicing fee	4,827	5,512	6,011
Vacation-leave liability	1,509	1,487	1,487
Post-retirement benefit liability	25	37	47
Other	1,684	1,089	2,135
Deferred tax asset	16,958	16,267	18,467
Deferred tax asset valuation allowance	(10,507)	(9,730)	(11,502)
Net deferred tax asset	\$ 6,451	\$ 6,537	\$ 6,965

Tax laws require certain items to be included in our tax returns at different times than the items are reflected in our Consolidated Statements of Income. Some of these items are temporary differences that will reverse over time. We record the tax effect of temporary differences as deferred tax assets and liabilities netted in our Consolidated Statements of Condition.

Our effective tax rate was 0.95 percent, 0.81 percent and 1.06 percent in 2023, 2022 and 2021, respectively.

Deferred income taxes have not been provided on patronage allocations from AgriBank, FCB prior to January 1, 1993, the adoption date of the Financial Accounting Standards Board guidance on "Income Taxes." Our intent is:

- to permanently invest these and other undistributed earnings in AgriBank, FCB, which indefinitely postpones their conversion to cash, or
- to pass through any distribution related to pre-1993 earnings to our borrowers through qualified patronage allocations.

We also have not recorded deferred income taxes on amounts allocated to us that relate to AgriBank, FCB's post-1992 earnings to the extent that these earnings will be passed through to our borrowers through qualified patronage allocations. Additionally, deferred income taxes have not been provided on AgriBank, FCB's post-1992 unallocated earnings. AgriBank, FCB currently has no plans to distribute unallocated earnings to us, and we do not contemplate circumstances that, if distributions were made under our current structure, would result in taxes being paid.

Our income tax returns are subject to review by various United States taxing authorities. We record accruals for items that we believe may be challenged by these taxing authorities. However, we had no uncertain income tax positions at December 31, 2023. Additionally, we believe we are no longer subject to income tax examinations for years prior to 2020.

Farm Credit Services of America, ACA

Notes to Consolidated Financial Statements

Note 12 – Related Party Transactions

In the ordinary course of business, we may enter into loan transactions with our directors, senior officers, their immediate family members and other organizations with whom such persons may be associated. These transactions may be subject to special approval requirements contained in the Farm Credit Administration regulations and/or our policy, and are made on the same terms, including interest rates, amortization schedules and collateral, as those prevailing at the time for comparable transactions with other persons. The related parties can be different each year-end, primarily due to changes in the composition of the Board of Directors and the mix of organizations with which such persons may be associated. Advances and repayments on loans in the chart below are related to those considered related parties at each respective year end. In our opinion, loans outstanding to directors and senior officers at December 31, 2023, did not involve more than a normal risk of collectability.

Loan information to related parties for the years ended December 31 is shown below (dollars in thousands):

Related Party Loans and Leases	As of December 31,		
	2023	2022	2021
Total related party loans and leases	\$74,316	\$68,911	\$73,892

Related Party Loans and Leases	For the year ended December 31,		
	2023	2022	2021
New and advances on loans and leases	\$37,607	\$36,309	\$37,921
Repayments and other	\$32,202	\$41,290	\$23,534

We purchase certain business services from SunStream Business Services (SunStream) including tax-reporting services; cash management; customer, travel and expense credit card programs; and expense and invoice reporting tools. The total cost of services we purchased was \$1.6 million, \$1.6 million and \$1.6 million in 2023, 2022 and 2021, respectively.

As discussed in Note 8, we borrow from AgriBank, FCB in the form of a line of credit to fund our loan portfolio. All interest expense as shown in the Consolidated Statements of Income was paid to AgriBank, FCB. Total patronage earned from AgriBank, FCB, which includes our partnership distribution from AgDirect, LLP and pool program patronage income, was \$198.7 million, \$175.1 million and \$173.2 million in 2023, 2022 and 2021, respectively. In addition, we earned compensation from AgriBank, FCB for servicing loans of \$1.8 million, \$592 thousand and \$778 thousand in 2023, 2022 and 2021, respectively. Refer to Note 3 for information on participations sold to AgriBank, FCB and Note 4 for stock investment in AgriBank, FCB information.

We have a relationship with CoBank, ACB that involves purchasing and selling participation interests in loans. Total patronage earned from CoBank, ACB was \$12.8 million in 2023, \$5.8 million in 2022 and \$593 thousand in 2021. In addition, we earned compensation of \$567 thousand in 2023, \$613 thousand in 2022 and \$653 thousand in 2021 from CoBank, ACB for servicing those loans.

We purchase human resource information systems and benefit and payroll services from Farm Credit Foundations. The Farm Credit System entities using Farm Credit Foundations' services contributed an investment into the service corporation when it was formed as a separate service corporation. Our investment was \$141 thousand at December 31, 2023, December 31, 2022, and December 31, 2021. The total cost of services purchased from Farm Credit Foundations was \$1.8 million in 2023, \$1.7 million in 2022 and \$1.6 million in 2021.

We are a participant in the Rural 1st referral program to provide rural home lending to our customers. The program is facilitated by an Association in the AgriBank, FCB District where the loans are serviced. We receive noninterest income from the facilitating Association on loan volume originated in our territories via Rural 1st. During 2023, we received \$4.2 million in noninterest income for these originations. In 2022 and 2021, we received \$6.6 million and \$8.8 million, respectively.

We participate in ProPartners Financial (ProPartners) with certain Farm Credit System institutions to provide producer financing through agribusinesses that sell crop inputs. ProPartners is directed by representatives from participating Associations. We sell to AgriBank, FCB our entire interest in the loans associated with ProPartners. As part of this program, we receive patronage income at the sole discretion of the AgriBank, FCB Board of Directors. We received \$2.9 million in patronage income in 2023, \$2.0 million in 2022 and \$1.1 million in 2021.

We have an agreement with Farm Credit Leasing Services Corporation (FCL), a Farm Credit System service corporation, which specializes in leasing products and provides industry expertise. Leases are originated and serviced by FCL, and we purchase a participation interest in the cash flows of the transaction. This arrangement provides our members with a broad selection of product offerings and enhanced lease expertise.

Note 13 – Commitments and Contingencies

In the normal course of business, we have various outstanding commitments and contingent liabilities, such as commitments to extend credit to satisfy the financing needs of our customers. These financial instruments involve, to varying degrees, elements of credit risk in excess of the amount recognized in the financial statements. Commitments to extend credit are agreements to lend to a customer as long as there is not a violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since

Farm Credit Services of America, ACA

Notes to Consolidated Financial Statements

some of the commitments may expire without being drawn upon, the total commitments do not necessarily represent future cash requirements. We evaluate each customer's creditworthiness on a case-by-case basis using the same credit policies as for on-balance sheet financial instruments. The amount of collateral obtained, if deemed necessary upon extension of credit, is based on our credit evaluation of the borrower. Collateral held upon exercise of commitments varies but may include accounts receivable, inventory, property, plant and equipment, and agricultural real estate. We had remaining commitments for additional borrowing at December 31, 2023, of approximately \$12.6 billion, approximately \$11.7 billion at December 31, 2022, and approximately \$10.1 billion at December 31, 2021.

We also participate in standby letters of credit to satisfy the financing needs of customers. These letters of credit are irrevocable agreements to guarantee payments of specified financial obligations. At December 31, 2023, \$189.2 million of standby letters of credit were outstanding, \$151.0 million at December 31, 2022, and \$128.3 million at December 31, 2021. Outstanding standby letters of credit have expiration dates ranging to 2054. The maximum potential amount of future payments we are required to make under the guarantees is equal to the total amount of the letters of credit outstanding.

We and other Farm Credit System institutions are among the limited partners invested in 15 Rural Business Investment Companies (RBICs). Our total current commitment is \$204 million with varying commitment dates through June 2034. Certain commitments may have an option to extend under specific circumstances. At December 31, 2023, our total commitment is \$204 million, of which \$115.9 million is unfunded. Our unfunded totals were \$77.3 million and \$59.6 million at December 31, 2022, and 2021, respectively. The investments were evaluated for impairment. No impairments were recognized on this investment during 2023, 2022 or 2021.

In the normal course of business, we may be subject to a variety of legal matters that may result in contingencies. Actions are pending against us in which claims for money damages are asserted. In our opinion, based on current information, the ultimate liability, if any, would not have a material impact on our financial position.

Note 14 – Fair Value Measurement

The Financial Accounting Standards Board guidance on "Fair Value Measurements" defines fair value as the exchange price that would be received for an asset or paid to transfer a liability in an orderly transaction between market participants in the principal or most advantageous market for the asset or liability. The guidance also establishes a fair value hierarchy, with three levels of inputs that may be used to measure fair value. See Note 2 for a more complete description of the three input levels.

We do not have any assets or liabilities measured at fair value on a recurring basis. We may be required, from time to time, to measure certain assets at fair value on a nonrecurring basis. The following tables provide information on assets measured at fair value on a nonrecurring basis (dollars in thousands):

As of December 31, 2023	Fair Value Measurement Using			Total Fair Value
	Level 1	Level 2	Level 3	
Loans	\$ —	\$ —	\$41,427	\$41,427

As of December 31, 2022	Fair Value Measurement Using			Total Fair Value
	Level 1	Level 2	Level 3	
Loans	\$ —	\$ —	\$24,666	\$24,666

As of December 31, 2021	Fair Value Measurement Using			Total Fair Value
	Level 1	Level 2	Level 3	
Loans	\$ —	\$ —	\$12,770	\$12,770
Other property owned	\$ —	\$ —	\$7,621	\$7,621

The amount of loans in the previous tables represents the carrying amount of certain loans that were evaluated for credit losses and are deemed to be collateral dependent. The carrying value amount is based on the estimated value of the underlying collateral, less costs to sell. When the fair value of the collateral, less costs to sell, is less than the amortized cost basis of the loan, a specific allowance for expected credit losses is established. Costs to sell represent transaction costs and are not included as a component of the collateral's estimated fair value. Typically, the evaluation process requires significant input based on management's knowledge of and judgment about current market conditions, specific issues relating to the collateral and other matters and, therefore, are classified as Level 3 fair value measurements.

The amount of other property owned represents the fair value of foreclosed assets measured based on the collateral value, which is generally determined using appraisals or other indications based on sales of similar properties. Costs to sell represent transaction costs and are not included as a component of the asset's fair value. If the evaluation process uses observable market-based information, they are classified as Level 2. If the process requires significant input based on management's knowledge of and judgment about current market conditions, specific issues relating to the property and other matters, they are classified as Level 3.

Note 15 – Subsequent Events

We have evaluated subsequent events through March 1, 2024, which is the date the Consolidated Financial Statements were available to be issued and have determined that there are no other events requiring disclosure.

Directors and Compensation of Directors

The listing of directors, term of office, business experience during the past five years, principal occupation and employment during the past five years, and any other business interests, which are required to be disclosed in this section, are incorporated herein by reference from the "Farm Credit Services of America, ACA Directors" section in this annual report to stockholders.

Our bylaws permit compensation of directors for service on the Board. Compensation is provided for attendance at meetings, special assignments, training and development, and travel time associated with these responsibilities. The per diem rate for 2023 was \$600. The monthly director retainer for January 1, 2023, through April 30, 2023, was \$4,450. Beginning May 1, 2023, the monthly retainer for a director was \$5,420. Additional monthly retainer paid for leadership positions as of May 1, 2023, included:

- Board Chairperson – \$2,080
- Board Vice-Chairperson – \$1,040
- Executive Subcommittee Vice-Chairperson – \$630
- Subcommittee Chairperson (who is not a Board Vice-Chairperson) – \$830

Farm Credit Services of America, ACA

Disclosure Information

Required by Farm Credit Administration Regulations (Unaudited)

Compensation Overview: The Association's compensation programs are market-based and designed to provide competitive compensation, including base salary, incentives and benefits that attract, retain, motivate and reward an engaged and talented workforce while achieving business results aligned with the best interests of our shareholders.

The design and governance of our chief executive officer and senior officer compensation program are consistent with prudent risk management standards and provide total compensation that promotes our mission to ensure a safe, sound and dependable source of credit and related services for agriculture and rural America. The design of the compensation program supports our risk management goals and includes (1) a competitive mix of base salary and variable pay, (2) a pay-for-performance process that allocates individual awards based on individual performance and contributions, (3) a balanced use of variable-pay performance measures that are risk-adjusted where appropriate, and (4) a long-term portion of variable pay to align with the strategic direction of the Association, which provide for competitive market-based compensation and align with shareholder interests.

Compensation for the chief executive officer and senior officers includes base salary, short-term incentive plan opportunity and long-term incentive plan opportunity. Compensation for all other employees includes base salary and short-term incentive plan opportunity. The chief executive officer and senior officers participate in benefit plans generally available to all employees. Under the alliance agreement described in Note 1 to the accompanying Consolidated Financial Statements, the 2023 compensation and benefits expense for the chief executive officer, senior officers, and all Association and Frontier Farm Credit employees was shared between the Association and Frontier Farm Credit on a 93.9 percent and 6.1 percent basis, respectively, excluding any Frontier Farm Credit pension plans expense in excess of the Association's retirement programs.

The chief executive officer, Mr. Mark Jensen, does not have an employment agreement. A chief executive officer employment agreement is at the discretion of the Board of Directors.

Base Salaries: Base salaries for all employees, including the chief executive officer and senior officers, are based on position, experience and responsibilities, performance and market-based compensation data. The chief executive officer base salary is reviewed and approved by the Board of Directors. The Board of Directors approves the merit and market-adjustment pools available for senior officers' base salaries. Employer expense for base salaries is included in "Salaries and employee benefits" in the Consolidated Statements of Income, which was shared by the Association and Frontier Farm Credit as part of the overall allocation of salaries and benefits.

Short-Term Incentive: The Board of Directors approves the annual short-term incentive plan, including the performance measures. The 2023 short-term incentive-plan performance measures included combined results for the Association and Frontier Farm Credit. The senior officers participate in the annual short-term incentive plan along with other eligible Association employees.

Select employees must sign an assignment, non-solicitation and nondisclosure agreement to participate in the short-term incentive plan. Payouts under the short-term incentive plan are based on financial and business results, and credit performance measures and are approved by the Board of Directors. Payouts are not provided unless specific levels of performance are achieved.

No more than one-half of the short-term incentive-plan award opportunity may be paid in the fourth quarter of the plan year (first award payout), and the remainder of the award payout (final award payout) is paid no later than March 15 after the end of the plan year. The first award payout is based on the results achieved as of September 30 for select performance measures. The final award payout is based on the year-end results net of the first award payout. The first payout under the 2023 short-term incentive plan occurred in November 2023. The second and final payout occurred in February 2024 and was net of the November 2023 payout.

The chief executive officer's short-term incentive opportunity is established by the Board of Directors. The Board has full discretion as to the amount of any payout to the chief executive officer under the short-term incentive plan and has historically and for 2023 used the results from the short-term incentive plan to determine the payout amount.

The accrued expense for the annual short-term incentive plan was \$56.0 million, plus accrued costs of \$9.3 million for a total of \$65.3 million for 2023, which was shared by the Association and Frontier Farm Credit as part of the overall allocation of salaries and benefits.

Long-Term Incentive: The chief executive officer and senior officers are eligible for long-term senior officer incentive plans. The long-term incentive plans were approved by the Board of Directors to align chief executive officer and senior officer compensation with the strategic business plan and the goals of the Association while providing the opportunity for competitive market-based compensation at a level that will attract, retain and reward key staff for the accomplishment of Association goals. The chief executive officer and senior officers must sign an assignment, non-solicitation and nondisclosure agreement to participate. The plans are nonqualified performance unit plans that are effective January 1, 2021, through December 31, 2023; January 1, 2022, through December 31, 2024; and January 1, 2023, through December 31, 2025.

The plans have independent performance goals measured over the three-year term of the plans that include core return on assets, customer experience index, employee engagement, loan growth, adverse assets to risk funds and nonaccrual loans to total classified assets. The results included in the plans were combined results for the Association and Frontier Farm Credit.

The Board of Directors approves the total dollars available for the long-term incentive plans, which are then converted into units. The value of each unit is determined by the results achieved toward the established goals. The chief executive officer has discretion as to the distribution of the units to the senior officers for each three-year plan, which is based on consideration of market compensation and individual contributions and performance. The chief executive

officer's long-term incentive opportunity is established by the Board of Directors. The Board has full discretion as to the amount of any payout to the chief executive officer under the long-term incentive plan and has historically used the results from the long-term senior officer incentive plan to determine the unit value for the payout amount.

Payments are made no later than March 15 after the end of each three-year plan's term. The payout for the 2021–2023 plan occurred in February 2024 and is reflected in the Summary Compensation Table in the "Long-Term Incentive" column for the calendar year 2023. The payouts for the 2019–2021 and 2020–2022 plans were paid in the first quarter of 2022 and the first quarter of 2023, respectively, and are reflected in the Summary Compensation Table in the "Long-Term Incentive" column for the calendar years 2021 and 2022.

The accrued expense for salary and benefits of \$10.4 million was recorded in 2023 for the long-term incentive plans. The expense was shared by the Association and Frontier Farm Credit as part of the alliance allocation.

⁽¹⁾ The Association paid 93.9 percent, 93.7 percent and 93.7 percent of the compensation expense for 2023, 2022 and 2021, respectively. Frontier Farm Credit paid 6.1 percent, 6.3 percent and 6.3 percent of the compensation expense for 2023, 2022 and 2021, respectively.

⁽²⁾ Salary earned in the fiscal year.

⁽³⁾ Incentive earned in the fiscal year.

⁽⁴⁾ Incentive earned at the end of the respective three-year, long-term incentive plan.

⁽⁵⁾ Association contributions to the Defined Contribution Plan and Nonqualified Deferred Compensation Plan during the fiscal year.

⁽⁶⁾ Executive physicals, sign-on bonus, special recognition bonus, retirement gift, severance, taxable moving expense, vacation-leave payout, recognition and referral awards, health and fitness account payouts, health incentives, taxable vehicle use, long-term disability premiums, and group life insurance imputed income incurred during the fiscal year. For 2022 and 2021, this number includes severance payouts for executive departure.

⁽⁷⁾ Employees designated as senior officers during the fiscal year. At year end of 2023 there were 34 senior officers. One senior officer left the Association in 2021. Also in 2021, one senior officer position was eliminated. In 2022, one senior officer moved to a non-senior officer position in the Association and one senior officer position was eliminated. In 2023, one senior officer moved to a non-senior officer position in the Association and three senior officers retired.

Disclosure of the total compensation paid during 2023 to any senior officer included in the Summary Compensation Table is available to our stockholders upon written request to Farm Credit Services of America, PO Box 2409, Omaha, NE 68103-2409.

Details of the benefit plans are described in Note 10 to the accompanying Consolidated Financial Statements.

Farm Credit Services of America, ACA

Disclosure Information

Required by Farm Credit Administration Regulations (Unaudited)

Travel, Subsistence and Other Related Expenses

Director and employee reimbursements for travel, subsistence and other related expenses are set forth in the Board's Governance Guidelines and Human Resources Manual, respectively. Each provides authority for and control over reimbursement of travel and subsistence expenses for authorized individuals traveling on official business. Copies of the related Governance Guidelines and Human Resources Manual provisions are available to our stockholders upon written request to Farm Credit Services of America, PO Box 2409, Omaha, NE 68103-2409.

The aggregate amount of reimbursement for travel, subsistence and other related expenses for all our directors was \$243 thousand in 2023, \$188 thousand in 2022 and \$78 thousand in 2021.

Transactions With Directors, Senior Officers and Employees

Directors and certain employees may obtain loans from us, provided they meet all eligibility requirements and provided that such loans are made on the same terms available to other customers. Approval of AgriBank, FCB is required for loans to our directors and employees, and for loans to any customer if a director or employee is to receive more than \$100 thousand of the loan proceeds, has a significant personal interest in the loan or its security, may exercise control over the customer, or guarantees or cosigns a loan in excess of \$100 thousand. Further, directors and employees are required to refrain from taking any part in the consideration or decision on any loan in which they or their family members have an interest.

Our bylaws and policies require that directors' loans be maintained at a high level of credit quality. Any director whose loan is classified as "substandard" must prepare and obtain approval of a plan to improve and upgrade the loan within a specified period of time. For directors, failure to comply with our bylaws and policies would result in the director's position being vacated. Directors whose loans are classified "doubtful" or "loss," or have any portion of a loan charged off, must resign immediately.

The Farm Credit Act and Farm Credit Administration regulations require certain disclosures to stockholders concerning loans to directors and employees, their family members, organizations with which they are affiliated or entities that they may control. Disclosure is required where such loans were made on terms other than those available to other customers, or where such loans are considered to have more than a normal risk of collectability. None of our loans made to directors or employees, their family members, or affiliated organizations or entities they may control were made on terms other than those available to all customers, nor were any such loans considered to have more than a normal risk of collectability.

Director, senior officer and employee non-loan transactions with us are regulated by our policy.

Concerning property that was mortgaged or pledged as security for Farm Credit System debt within the preceding 12 months, the policy requires that senior officers and employees obtain approval from the Standards of Conduct officer for purchase of the property.

Concerning property acquired within the preceding 12 months in satisfaction of Farm Credit System debt, this policy:

- prohibits lease, purchase or acquisition except through inheritance by senior officers and employees; and
- prohibits lease, purchase or acquisition except through inheritance, public auction or other open competitive bidding process by directors.

The policy does permit directors, senior officers and employees to purchase furniture and equipment owned by us provided that any item having a value of greater than \$5 thousand must be purchased through an open, competitive bidding process.

The Farm Credit Act and Farm Credit Administration regulations also require certain disclosures to stockholders concerning non-loan transactions a director or senior officer, or any of his or her family members, affiliated organizations or entities he or she may control, have with us. Such disclosure is required if such transactions did not involve competitive bidding, involved amounts in excess of \$5 thousand or provided a special benefit to the director or senior officer. No such transactions took place during 2023.

Involvement in Certain Legal Proceedings

There were no material legal proceedings or enforcement actions involving FCSAmerica, our directors or senior officers that require disclosure in this section.

Relationship With Qualified Public Accountant

PricewaterhouseCoopers LLP serves as our qualified public accountant. There were no changes in our qualified public accountant since the prior annual report to stockholders, and there were no material disagreements on any matter of accounting principles or financial statement disclosures during this period. Expenses recognized in the 2023 Consolidated Financial Statements for services provided by PricewaterhouseCoopers LLP were approved by the Board Audit Committee and include \$301 thousand for audit services and \$10 thousand for tax-review services. We also incurred \$25 thousand for work related to our implementation of new accounting guidance, which was preapproved by the Audit Committee. Our engagement letter commits to reimbursing the external auditor for reasonable out-of-pocket expenses as incurred for travel.

Financial Statements

The “Consolidated Financial Statements,” “Notes to Consolidated Financial Statements,” “Report of Management,” “Report on Internal Control Over Financial Reporting,” “Report of Audit Committee” and “Report of Independent Auditors” required to be disclosed in this section are incorporated herein by reference from this annual report to stockholders.

Credit and Services to Young, Beginning and Small Producers

Effective January 1, 2024, the annual gross-sales threshold for a small farmer, rancher, or producer or harvester of aquatic products increased from \$250 thousand to \$350 thousand and changed from measuring gross sales to gross-cash farm income. Effective February 1, 2024, the Farm Credit Administration amended certain young, beginning and small (YBS) regulations to clarify the responsibilities of funding banks in the review and approval of direct lender association YBS programs, strengthen funding-bank internal controls and bolster YBS business planning. None of these changes impacts the disclosures as of December 31, 2023.

We have specific programs in place to serve the credit and related needs of young, beginning and small producers in our territory. Programs focus on providing sound financial services, education and networking opportunities. The definitions of young, beginning and small producers follow:

Definitions

- Young – farmer, rancher, or producer or harvester of aquatic products who is 35 or younger as of the date the loan is originally made.
- Beginning – farmer, rancher, or producer or harvester of aquatic products who has 10 years or less farming, ranching or aquatic experience as of the date the loan is originally made.
- Small – farmer, rancher, or producer or harvester of aquatic products who normally generates less than \$250,000 in annual gross sales of agricultural or aquatic products at the date the loan is originally made.

Program Elements

Our program for serving young, beginning and small producers includes the following:

Conventional Loans: Producers 35 or younger or with 10 years or less of farming or ranching experience, may have sufficient capacity, credit history or financial backing to meet our traditional loan-approval standards.

AgStart Loans: Producers 35 or younger or with 10 years or less of farming or ranching experience, can benefit from modified credit-approval standards to help them gain access to debt capital. It is the goal of the program to help facilitate the financial growth of the customer and graduate participating producers from the AgStart program into conventional product offerings over time.

Development Fund: This program assists young, beginning and small producers who are beginning, growing or enhancing an agricultural-based operation by providing them business-planning assistance and includes three loan products: Working Capital Loan, Breeding Livestock Loan and Contract Finish Loan. As of December 31, 2023, we had 225 customers enrolled in the program, with a total commitment of \$23.7 million in Development Fund lending.

Youth in Agriculture Loans for Breeding Livestock: The Breeding Livestock Loan program for youth provides loans for terms of one to five years, up to \$10,000, for the purpose of purchasing breeding livestock. These loans require a cosigner of legal age and are approved based on the strength and credit scores of the cosigner.

Education and Finance Sponsorships: We provide donations and sponsor state and local Future Farmers of America (FFA) activities and conventions, state 4-H activities and conventions, and agricultural leadership programs.

Scholarships: In 2023, we funded \$2,500 scholarships to 30 qualified students studying agriculture at land-grant universities within our four-state territory. Additionally, we offered funding for the following scholarships to qualified students studying agriculture at selected educational institutes: \$2,000 scholarships to 40 students at community colleges; \$2,500 scholarships to 88 students at four-year colleges; \$2,000 scholarships to 32 FFA students in high school.

Small Producer Financing: Small producers are served primarily through three loan programs: Rural 1st Home Loans, AgDirect and the full line of products and services offered through our retail marketplaces. All these programs are designed to meet the needs of small producers, part-time farmers or rural residents with a convenient and efficient delivery of financial services. Small producers who also meet the definition of young or beginning are eligible for our young and beginning program.

Credit Underwriting Standards

Young and beginning producers who do not meet traditional credit standards are considered under an outreach loan program called AgStart. Through this program, applicants’ requests are analyzed and assessed based primarily on character and capacity credit factors. Farm Service Agency guarantees are used as deemed necessary, with additional support provided by our payment of the first \$2,500 of external fees.

As of December 31, 2023, AgStart customers accounted for 5,047 loans to 2,625 customers with a loan commitment of \$878.4 million. AgStart loan volume decreased by 2.8 percent in 2023.

Farm Credit Services of America, ACA

Disclosure Information

Results and Goals

As of December 31, 2023, we had 21,749 unique young, beginning and small customers, with total loan volume of \$6.6 billion. These include:

- 4,623 customers who qualify as young, with total loan volume of \$1.6 billion.
- 6,463 customers who qualify as beginning, with total loan volume of \$1.8 billion.
- 18,261 customers who qualify as small, with total loan volume of \$5.2 billion.

Young and Beginning Segment: The 2017 U.S. Department of Agriculture Census of Agriculture reports operators who meet the criteria for young, beginning and small, as well as farms with any operators meeting the criteria, including farms with debt. A significant change to the 2017 Census of Agriculture is the elimination of the “principal operator,” making it difficult to compare numbers to previous Census of Agriculture years. In our territory, there are 13,335 farms with debt with a young operator. There are 19,889 farms with debt with a beginning operator. As of December 31, 2023, we had 4,623 young customers and 6,463 beginning customers, some of whom are counted in both categories. This equates to a young market share of 34.7 percent and a beginning market share of 32.5 percent. Total loan volume to young and beginning customers was \$2.45 billion.

Small Producer Segment: According to 2017 U.S. Department of Agriculture Census of Agriculture data, 128,519 farms representing 73.7 percent of all farms in our four-state territory meet the definition of small (less than \$250,000 in annual gross sales of agricultural products). The 2017 Census of Agriculture includes any operation with farm income in its definition of a farm.

	Potential Customers*	FCSAmerica Customers	Market Share***
Young	13,335	4,623	34.7%
Beginning	19,889	6,463	32.5%
Small**	31,466	18,261	58.0%

* 2017 U.S. Department of Agriculture Census of Agriculture data of farms with debt.

** Potential customers in the small category are those who reported annual gross sales between \$10,000 and \$249,999.

*** Market share was computed by comparing the number of producers in the young, beginning or small categories maintaining a loan relationship with Farm Credit Services of America to the total number of producers with debt in those categories.

Young, Beginning and Small Producer New Customer Growth

	2024 Goals	2025 Goals	2026 Goals
Young	488	497	507
Beginning	742	764	787
Small	977	996	1,016

Special Program Goal (AgStart): This program goal will positively affect all three young, beginning and small producer categories. Use of this outreach loan program is seen as a critical component of long-term success in the marketplace.

The Association’s goal is to increase AgStart loan commitments by 8.0 percent to 12.0 percent annually.

Related Services

Young and Beginning Producer Conference: The annual Side by Side Conference was held in Omaha, Nebraska, on July 19–21, 2023. There were 107 customers in attendance from Farm Credit Services of America who attended in conjunction with Frontier Farm Credit customers. Additionally, monthly webinars were hosted throughout the year on topics tailored to young and beginning producers. These educational programs provide producers with the opportunity to network, learn from speakers, learn more about FCSAmerica and become better-informed business managers.

Education and Finance Sponsorships: We awarded \$444,000 in college scholarships to 190 students in 2023. We donated more than \$222,950 for state and local FFA and 4-H activities and provided additional funding and resources for young and beginning producer education, leadership development programs and community grants.

Awareness

Young, Beginning and Small Producer: The Association implemented an enhanced strategy to serve young, beginning and small producers. This strategy includes specialized roles dedicated to directly serving our customers, as well as a program management role for designing and implementing education and lending programs. A standing cross-functional team guides the ongoing focus on supporting the credit and related needs of young, beginning and small producers.
